HISTORY.—On Dec. 1, 1895, succeeded to the property of the old New York Lake Erie & Western RR. Company, sold in foreclosure on Nov. 6 under its second consolidated mortgage. The new company holds in fee or through ownership of all or practically all the stock of the independent companies, the line from New York to Chicago (including the Nypano RR. and Chicago & Erie companies) and also all branch and subsidiary lines except a few small properties aggregating about 300 miles held under lease. The reorganization **plan** of August, 1895, was given at length in V. 61, p. 368.

In January, 1898, control of the N. Y. Susquehanna & Western was obtained. The road is operated as an independent line. The acquisition will save the Erie considerable double tracking—see V. 66, p. 83 335, 573, and editorial p. 53. See STOCK below.

Nor. RR. of N. J. leased and 4 per cent guaranteed on its $1,000,000 stock in June, 1899.—V. 69, p. 81, 447.

In June, 1899, practically all of the stock of the New Castle & Shenango Valley RR. was acquired. V. 69, p. 447.

COAL AND STEAMBOAT PROPERTY.—The Erie coal properties represent an aggregate of 10,500 acres of anthracite, of which about 9,000 acres are held in fee; also 53,000 acres of bituminous coal lands held in fee 14,000 acres of bituminous held under mineral rights. Its coal tonnage in the year 1898-99 aggregated 11,363,640, out of the 24,916,944 tons hauled. The Union Steamboat Co. has its terminal and other properties in Buffalo and a fleet of eight lake steamers. See V. 63, p. 514.

STOCK.—The *stock* is to be held by J. Pierpont Morgan, Louis Fitzgerald and Charles Tennant, Bart., voting trustees, for five years, and thereafter until the new first preferred stock shall have received 4 per cent cash dividend in one year. In the meanwhile certificates of beneficial interest are outstanding. The new company reserves the right to redeem either class of its preferred stock at par in cash. Provisions of voting trust and preferred stock certificate were given in SUPPLEMENT of April, 1897, page 3.

In March, 1898, Erie pref. stock was authorized to be increased from $30,000,000 to $43,000,000, and common stock from $100,000,000 to $113,000,000, to acquire New York Susq. & Western stock.—See V. 66, p. 335, 573.

BONDS.—New York & Erie first 7s for $2,482,000, due May 1, 1897 were extended for 50 years at 4 p. c., payable p. & i. in gold. V. 64, p 180, 1040. The new first consolidated mortgage is for $175,000,000 [Farmers' Loan & Trust Co. trustee]—see **abstract** of deed V. 62, p. 89 and secures $35,000,000 prior lien bonds and $140,000,000 general lien bonds. Of the $35,000,000 *prior lien bonds*, $5,000,000 are to be used for improvements.

Of the $140,000,000 *general lien bonds*, $91,968,000 are reserved for the ultimate acquisition of all bonds and guaranteed stocks now left undisturbed on various parts of the system [excepting the $1,000,000 seconds on Buffalo & Southwestern—see list V. 62, p. 89], and $17,000,000 are reserved for new construction, betterments, additions, etc., after 1897, under carefully guarded restrictions, not over $1,000,000 to be used in any one year. The general lien bonds bear interest from July 1, 1896, first coupon being January 1, 1897, at 3 per cent per annum for two years and 4 per cent thereafter.

The position of the first consolidated mortgage is substantially as follows: It is a first lien, either by mortgage or collateral trust [the prior lien bonds, however, preceding the general lien bonds] upon the company's principal coal properties, upon its water transportation lines, including valuable terminal properties appurtenant thereto, and upon a number of profitable local lines in New Jersey and near Buffalo; it is a *second lien* upon the remaining coal properties and upon the railroads leading to all the coal properties, upon the terminals at Jersey City, upon the Buffalo New York & Erie Railroad (the main line to Buffalo) and the Buffalo terminal properties other than those upon which it is first lien, and upon the entire line from Salamanca to Chicago; it is a *second consolidated mortgage* upon the lines between Piermont and Dunkirk (446 miles.)

Real estate mortgages outstanding June 30, 1899, $439,500.

Old Bonds—Under the first consol. mortgage of 1895 the company covenants to pay the interest regularly on all the old bonds in the table that are marked with a * or a ‡ (except N. J. & N. Y. bonds,) and to take them up and pledge them with the trustee at maturity.

A description of the *Long Dock* 6s was in March, 1894, SUPPLEMENT under N. Y. L. E. & W. The yearly rental is $450,000.

For *N. Y. Lake Erie & W. Coal & RR.*, see SUP. January, 1895.

FIXED CHARGES.—"The fixed charges of the Erie System (calculated on all bonds which will be outstanding on completion of the reorganization) are reduced from $9,400,000 to $7,860,000 per annum (including prior lien bonds $1,176,000; undisturbed bonds and stock $5,500,000; general lien bonds, $1,184,000) and for the first two years after reorganization a further reduction of about $300,000 per annum is made to an amount nearly equaled by the net earnings of the property in 1893-94.

GENERAL FINANCES.—The old company was greatly hindered by lack of capital, but this is remedied by the bond issues allowed under the new mortgage. Control of the Northern RR. of New Jersey was purchased in July, 1897. Control of the New York Susquehanna & Western—which see—was acquired in 1898 through an exchange of stock. V. 66, p. 335, 573. Extension of Gt. North. main line was building in 1898 between Fosston and Duluth, 230 miles. V. 67, p. 28, 796. The Spokane Falls & Northern was acquired in 1898. V. 67, p. 30, 179, 797. The Duluth Miss. Riv. & Nor., etc., was purchased in 1899, possession being taken May 1. See V. 68, p. 187, 822, 976. In Sept., 1899, it was reported that an extension was purposed of the Eastern Minnesota line from Milaca, north about 100 miles, to connect with the Dul. Miss. Riv. & Nor.; also a cut off between Libbey Creek and Kalispell, Mont., to extend from Batavia along Libbey Creek to Libbey, about 75 miles.

STOCK, LEASES, ETC.—This corporation in February, 1890, leased the St. Paul Minneapolis & Manitoba for 999 years, assuming its funded debt and guaranteeing 6 p.c. per annum in gold on its $20,000,000 stock.

In 1898 $25,000,000 new Great Nor. preferred, raising the total capital stock to $50,000,000, was offered to stockholders, $15,000,000 of this being sold at par to provide for retirement of $15,000,000 col. tr. 4s of 1892, called for redemption Sept. 1, 1898, and $10,000,000 being exchanged for the $12,500,000 stock of the Seattle & Montana RR., which in June, 1898, had been declared distributable as a 50 per cent dividend.—V. 66, p. 1044, 1188; V. 67, p. 796.

In October, 1898, the stockholders surrendered the right to issue $20,000,000 common stock in addition to the $50,000,000 preferred then outstanding, and made all the stock "of a single class, with uniform rights and privileges." Also authorized the purchase of the $20,000,000 of guaranteed 6 per cent stock of the St. Paul Minneapolis & Manitoba, on the basis of $125 Great Northern stock for each $100 Manitoba stock, thus increasing the Great Northern stock to $75,000,000. In Oct., 1899, $24,409,700 of the increased stock had been issued and leaving not over $472,240 of the Manitoba stock unexchanged.—(V. 68, p. 129; V. 67, p. 1356; V. 67, p. 370, 788, 842.)

In April, 1899, $15,000,000 additional preferred, raising total to $90,000,000, was offered to stockholders at par, to acquire all the bonds, debentures and stock of the Spokane Falls & Nor. Ry., Nelson & Ft. Sheppard Ry, Columbia & Red Mtn. Ry. and Red Mtn. Ry., and $7,500,000 new stock of East Ry. of Minn. V. 68, p. 772, 822, 1181.

LANDS.—Land sales in April, 1897, had retired all the 1st mort. bonds and were then applicable to consol mort. of 1883.

Sales for year ending June 30, 1898, were 120,452 acres for $883,145 and 344 town lots for $16,503. The net amount due on land contracts June 30, 1898, was $1,605,626; lands unsold, 1,308,483 acres.

Minneapolis & St. Cloud grant was 476,864 acres; unsold July 1, 1898, 405,695 acres; sales in 1897-98 were 2,831 acres for $19,532.

Also in 1898 the stockholders received 50 per cent in Seattle & Montana stock, which they were allowed to exchange for 40 p. c. in Great Northern preferred. V. 66, p. 1044, 1188.

BONDS.—St. P Min. & Man. *consol. mort.* of 1883 is for $50,000,000, of which bonds are reserved to pay prior liens. It is a first lien on the land grant and on 670 miles of railway in Minnesota and a second lien on the remaining 1,873 miles in Minnesota and the Dakotas, the prior liens on which average only $7,300 per mile. V. 64, p. 518. *Montana Extension* mortgage is for $25,000,000 for extensions and for second track. **Abstract** V. 45, p. 342.

Pacific extension mort. £6,000,000 provides for bonds at £6,000 per mile in Montana and £7,000 per mile west of Montana; £3,000,000 of this issue, in addition to those given in the table above, were pledged to secure the Great Northern's collateral trust bonds, but were released upon payment of the latter, called for redemption on Sept. 1, 1898. V. 66, p. 1044, 1188. See **abstract** of mortgage, V. 52, p. 82.

Eastern Railway of Minnesota runs from Hinckley northward 70 miles, to a point near Duluth; the first mortgage covers road, equipment, terminals and elevators. The Northern Div. $15,000,000 mortgage of 1898 provides for extension building from Fosston, Minn., to the head of lake navigation at Duluth, and also for future requirements, including the retirement of the $4,700,000 1st 5s at maturity. They are redeemable at 105 on three months' notice after Apr. 1, 1928. —V. 66, p. 471. *Montana Central* bonds cover several roads. (See adv. CHRON. Dec. 12, 1891.) The Manitoba guarantees these issues, and the Great Northern assumes the guaranty.

The *Willmar & Sioux Falls* bonds are endorsed with joint and several guaranty of the Manitoba and Great Northern companies. Further issues may be made at $17,500 p. m. for additional road. V. 56, p. 247.

Minneapolis Western first mortgage is for $1,000,000. V. 60, p. 835.

GENERAL FINANCES.—The preferred stock was increased in 1898-9 from $25,000,000 to $90,000,000—see above and V. 66, p. 1188; V. 67, p. 370, 788, 842, 1003, 1356. V. 68. p. 772. The consol. mortgage of 1897 (United States Trust Co., N. Y., and John T. Dye of Indianapolis, Ind., trustees,) is for $50,000,000 of 3½ per cent gold bonds, tax free, authorized to retire the several issues of 7s maturing from 1898 to 1903 (see **abstract** in V. 64, p. 1182) amounting to $43,192,000, and the balance, $6,808,000 for use in refunding said bonds and for general purposes of the company. The mortgage covers 829·54 miles of main line and branches—a considerable portion being double tracked—and 181·11 miles of leased lines. The refunding of the first 7s into new 3½ per cent consols will effect a saving in interest charges, when entire $50,000,000 are outstanding, of $1,273,440 a year. See refunding plan in V. 64, p. 469, 610 and also V. 66, p. 82; V. 67, p. 956. To June, 1899, $30,542,000 of 3½s had been listed.—V. 66, p. 1140; V. 68, p. 1182.

GUARANTIES.—As to guaranties additional to those shown in table above see Detroit Hillsdale & S. W. and Fort Wayne & Jackson.

GENERAL FINANCES.—Nothing has been charged to construction or equipment account since 1883, the outlays charged to operating expenses for new equipment amounting in 1898 to $699,516, and in 1897 to $349,280 and for construction to $108,908 in 1898, against $245,179, these items being exclusive of expenditures for renewals. Profit and loss surplus Jan. 1, 1899, $7,350,713. Low grades permit large train loads; average for 1898, 352 tons, against 321 in 1897.

In Apr., 1899, $25,908,000 of the $43,192,000 7 per cents due in 1903 and earlier, and outstanding in June, 1897, had been retired and $25,908,000 new 3½s issued, thus reducing fixed charges $770,540 per annum, or 1½ per cent on the capital stock.

In Feb., 1898, a majority of the capital stock was purchased by the N. Y. C. & H. RR., which gave in exchange its 3½ p. c. bonds at the rate of $200 in bonds for $100 in stock, and offered to take the minority interest on the same terms. These coll. trust 3½s of 1898 (authorized issue $100,000,000) bear interest from Feb. 1, 1898, and are secured by deposit in trust with Guaranty Trust Co., mortgage trustee, of L. S. & M. S. stock at the rate of $100 of stock for each $200 of bonds outstanding. (V. 66, p. 288.) In Oct., 1899, $45,269,000 stock had been exchanged. (V. 66, p. 1237.)

The line of 40 miles between Pineapple and Repton, Ala., under construction in March, 1899, will furnish a direct route from Selma to Pensacola.—V. 68, p. 524.

ORGANIZATION, &C.—This company was chartered March 2, 1850, and opened between Louisville and Nashville November, 1859. The liabilities for interest on the auxiliary roads are treated mostly as belonging directly to the Louisville & Nashville Co. A list of the securities owned and in sinking fund June 30, 1899, was in V. 69, p. 748, 753. Georgia RR. (see Georgia RR. & Banking Co.) was leased in 1881 jointly to Central of Georgia and L. & N., but the L. & N. acquired all rights under the lease—see V. 68, p. 722—in which it was stated a half interest would be acquired by the Atlantic Coast Line Co.

The stockholders on Oct. 4, 1899, ratified the new lease of the Nashville & Decatur, the assumption of the entire lease of the Georgia RR.; Atlantic Coast Line has half interest as sub lessee (V. 69, p. 591, 748), the sale of its Pensacola & Selma RR. in Alabama to the Southern Alabama RR. and the purchase of the latter.—V. 69, p. 541.

Terminals.—Jointly with Nashv. Chat. & St. L. leases terminal property in Nashville (belonging to Louisville & Nashville Terminal Co.) for 99 years from 1897. (V. 65, p. 278.) Contract for new station was let in July, 1898. V. 67, p. 222, 329, 742.

For Henderson Bridge see Miscellaneous Companies.

STOCK.—In July, 1891, it was voted to increase the stock from $48,000,000 to $55,000,000 for purchase of Kent. Cent. RR., &c. Of the new stock $4,800,000 was taken by stockholders of July 21 at 70, and July 1, 1899, $2,200,000 was held in the treasury. Further increase in stock to $60,000,000 authorized in Nov., 1893.—V. 57, p. 596, 809.

BONDS.—The *Evansv. Hender. & Nashv.* bonds are drawn at 110 by lot annually in October, for payment Dec. 1 in amounts increasing each five years until $150,000 per year is finally reached; in 1898, $38,000.

The *Pensacola Division* bonds are subject to a drawing sinking fund $5,000 till 1900, inclusive, then $10,000, and so increasing.

The *general mortgage* bonds of 1880 are subject to call at 110 in increasing amounts each year; $260,000 gen. mort. bonds were redeemed in 1898-9; also $55,000 Cecilia Branch bonds. V. 69, p. 746.

In June, 1890, the *"unified" mortgage* (trustee, Central Trust Company) for $75,000,000 was authorized, $41,917,660 bonds being reserved to retire all prior liens (none of the prior liens can be extended), the balance for improvements, extensions (at the rate of $32,000 per mile, including equipment), and for other purposes. The mortgage covers (besides 1,232 miles of road and its equipment) $25,992,535 stock of companies controlled, and $3,150,000 bonds free from any lien. See abstract of mortgage in V. 51, p. 613. On June 30, 1899, company reported $32,131,000 issued, of which $3,137,000 in the treasury. Total listed on N. Y. Stock Exchange $14,994,000 in Oct., 1899.

Mobile & Montgomery—Louisville & Nashville joint mortgage is for $5,000,000, a first lien on 178½ miles Mobile to Montgomery; $1,000,000 reserved for improvements. V. 61, p. 196, 750.

Kentucky Central mortgage abstract V. 45, p. 372.

Pensacola & Atlantic first mortgage bonds (assumed) are gradually being called for the sinking fund at 110; on June 30, 1899, $843,000 were held in the treasury, making total outstanding $1,910,000.

St. Louis terminal property bonds cover freight terminals.

The *collateral trust bonds* of 1898 (see below) are secured by deposit with the U. S. Trust Co., as mortgage trustee, of $14,000,000 L. & N. unified 4s and $4,000,000 L. & N. Paducah & Memphis division bonds, the latter covering the road from Paducah, Ky., to Memphis, Tenn., 254 miles. The loan is limited to $12,500,000, and is subject to call at par on and after April 1, 1903. (V. 66, p. 337; V. 68, p. 87.)

GUARANTIES.—Besides bonds in table, the Louisv. & Nashv. is responsible for $2,100,000 bonds and dividends on $2,305,582 stock of Nashville & Decatur (which see); and for $2,096,000 Nashville Florence & Sheffield bonds.

GENERAL FINANCES.—In 1898 sold $12,500,000 collateral trust bonds, due in 20 years but subject to call on or after April 1, 1903, deferring sale of L. & N. 4s for better prices. V. 67, p. 742. This transaction reduced interest charges (includ. int. on floating debt) about $200,000 yearly. As a result of refunding there was on Dec. 31, 1898, no floating debt, a cash surplus of about $2,000,000 and stocks and bonds in treasury worth $9,000,000 to $10,000,000. (V. 66, p. 337, 574; V. 68, p. 85.) Since July 1, 1894, the "construction account" has been closed, and in the five years ending June 30, 1899, $2,621,230 had been charged to operating exp. for permanent improvements. In Feb., 1899, dividends resumed (Feb. 1½%). V. 68, p. 85. In Aug., 1899, 2 p. c. was paid. V. 69, p. 130.

On May 26, 1899, the Louisville & Nashville and Southern Ry. acquired the 70 miles of track of the Birmingham Southern RR. for $1,100,000 cash. V. 68, p. 774, 1078.

(See abstract of mortgage in V. 51, p. 248, and application to New York Stock Exchange in V. 52, p. 353.) Of the consols the company itself in Dec., 1897, held $300,000 against "special account" and $50,000 consols to redeem convertible certificates.—V. 69, p. 131.

GENERAL FINANCES.—See V. 68, p. 232, 282. To May, 1898, claims aggregating $8,847,854 had been paid by the company as damages to abutting property and other cases were before the courts. See CHRONICLE, V. 66, p. 954, and V. 67, p. 789. As to personal property tax assessment, see V. 66, p. 954; V. 67, p. 222, and V. 68, p. 1282. CANADA SOUTHERN CONTRACT.—In Nov., 1882, a close contract was made with Can. So. for the operation of its road. The contract provided for a re-apportionment every five years and in the re-apportionment December, 1892, it was agreed that the Canada Southern should thereafter receive 40 per cent and the Michigan Central 60 per cent of the first $1,000,000 of net earnings, any amount over that to be divided as theretofore—one-third to C. S. and two-thirds to M. C.; but under the original contract each company is accorded all benefit from reduction in its fixed charges. The M. C. to Jan. 1, 1898, had reduced its charges $327,000; this sum is therefore credited to it before the division.

CAPITAL STOCK.—The stock has remained at same amount since 1895.

BONDS.—The *Jackson Lansing & Saginaw bonds* were assumed by Michigan Central, which also guarantees in perpetuity 3½ per cent on the stock. The *Bay City & Battle Creek* mortgage is for $1,800,000, but amount outstanding is limited to $15,000 per mile. The total issue of *Battle Creek & Sturgis* bonds is $500,000, but of this $79,000 was sub-guaranteed by the Lake Shore & Michigan Southern, 7 miles of the B. C. & S. being operated by that company. The Bay City & Battle Creek and the Battle Creek & Sturgis issues both carry the guaranty of the Michigan Central endorsed on the bonds.

OPERATIONS, FINANCES, &C.—The road is operated under a close contract with Canada Southern, and the earnings of both roads are included in the statistics below. As to division of profits between the companies, see explanation V. 64, p. 5. All betterments and improvements to the road have been charged to operating expenses, except $70,000 set aside out of net revenue of 1898 as a special fund for construction of second track between Ypsilanti and Dexter.

In 1898 purchase was arranged of the capital stock by the N. Y. C. & H. R. RR. Co., which gave in exchange its 3½ per cent 100-year gold bonds at the rate of $115 in bonds for $100 in stock. V. 66, p. 759. In Oct., 1899, $16,073,400 of the $18,738,000 stock had been acquired by the N. Y. C. & H. R. RR. V. 66, p. 1238.

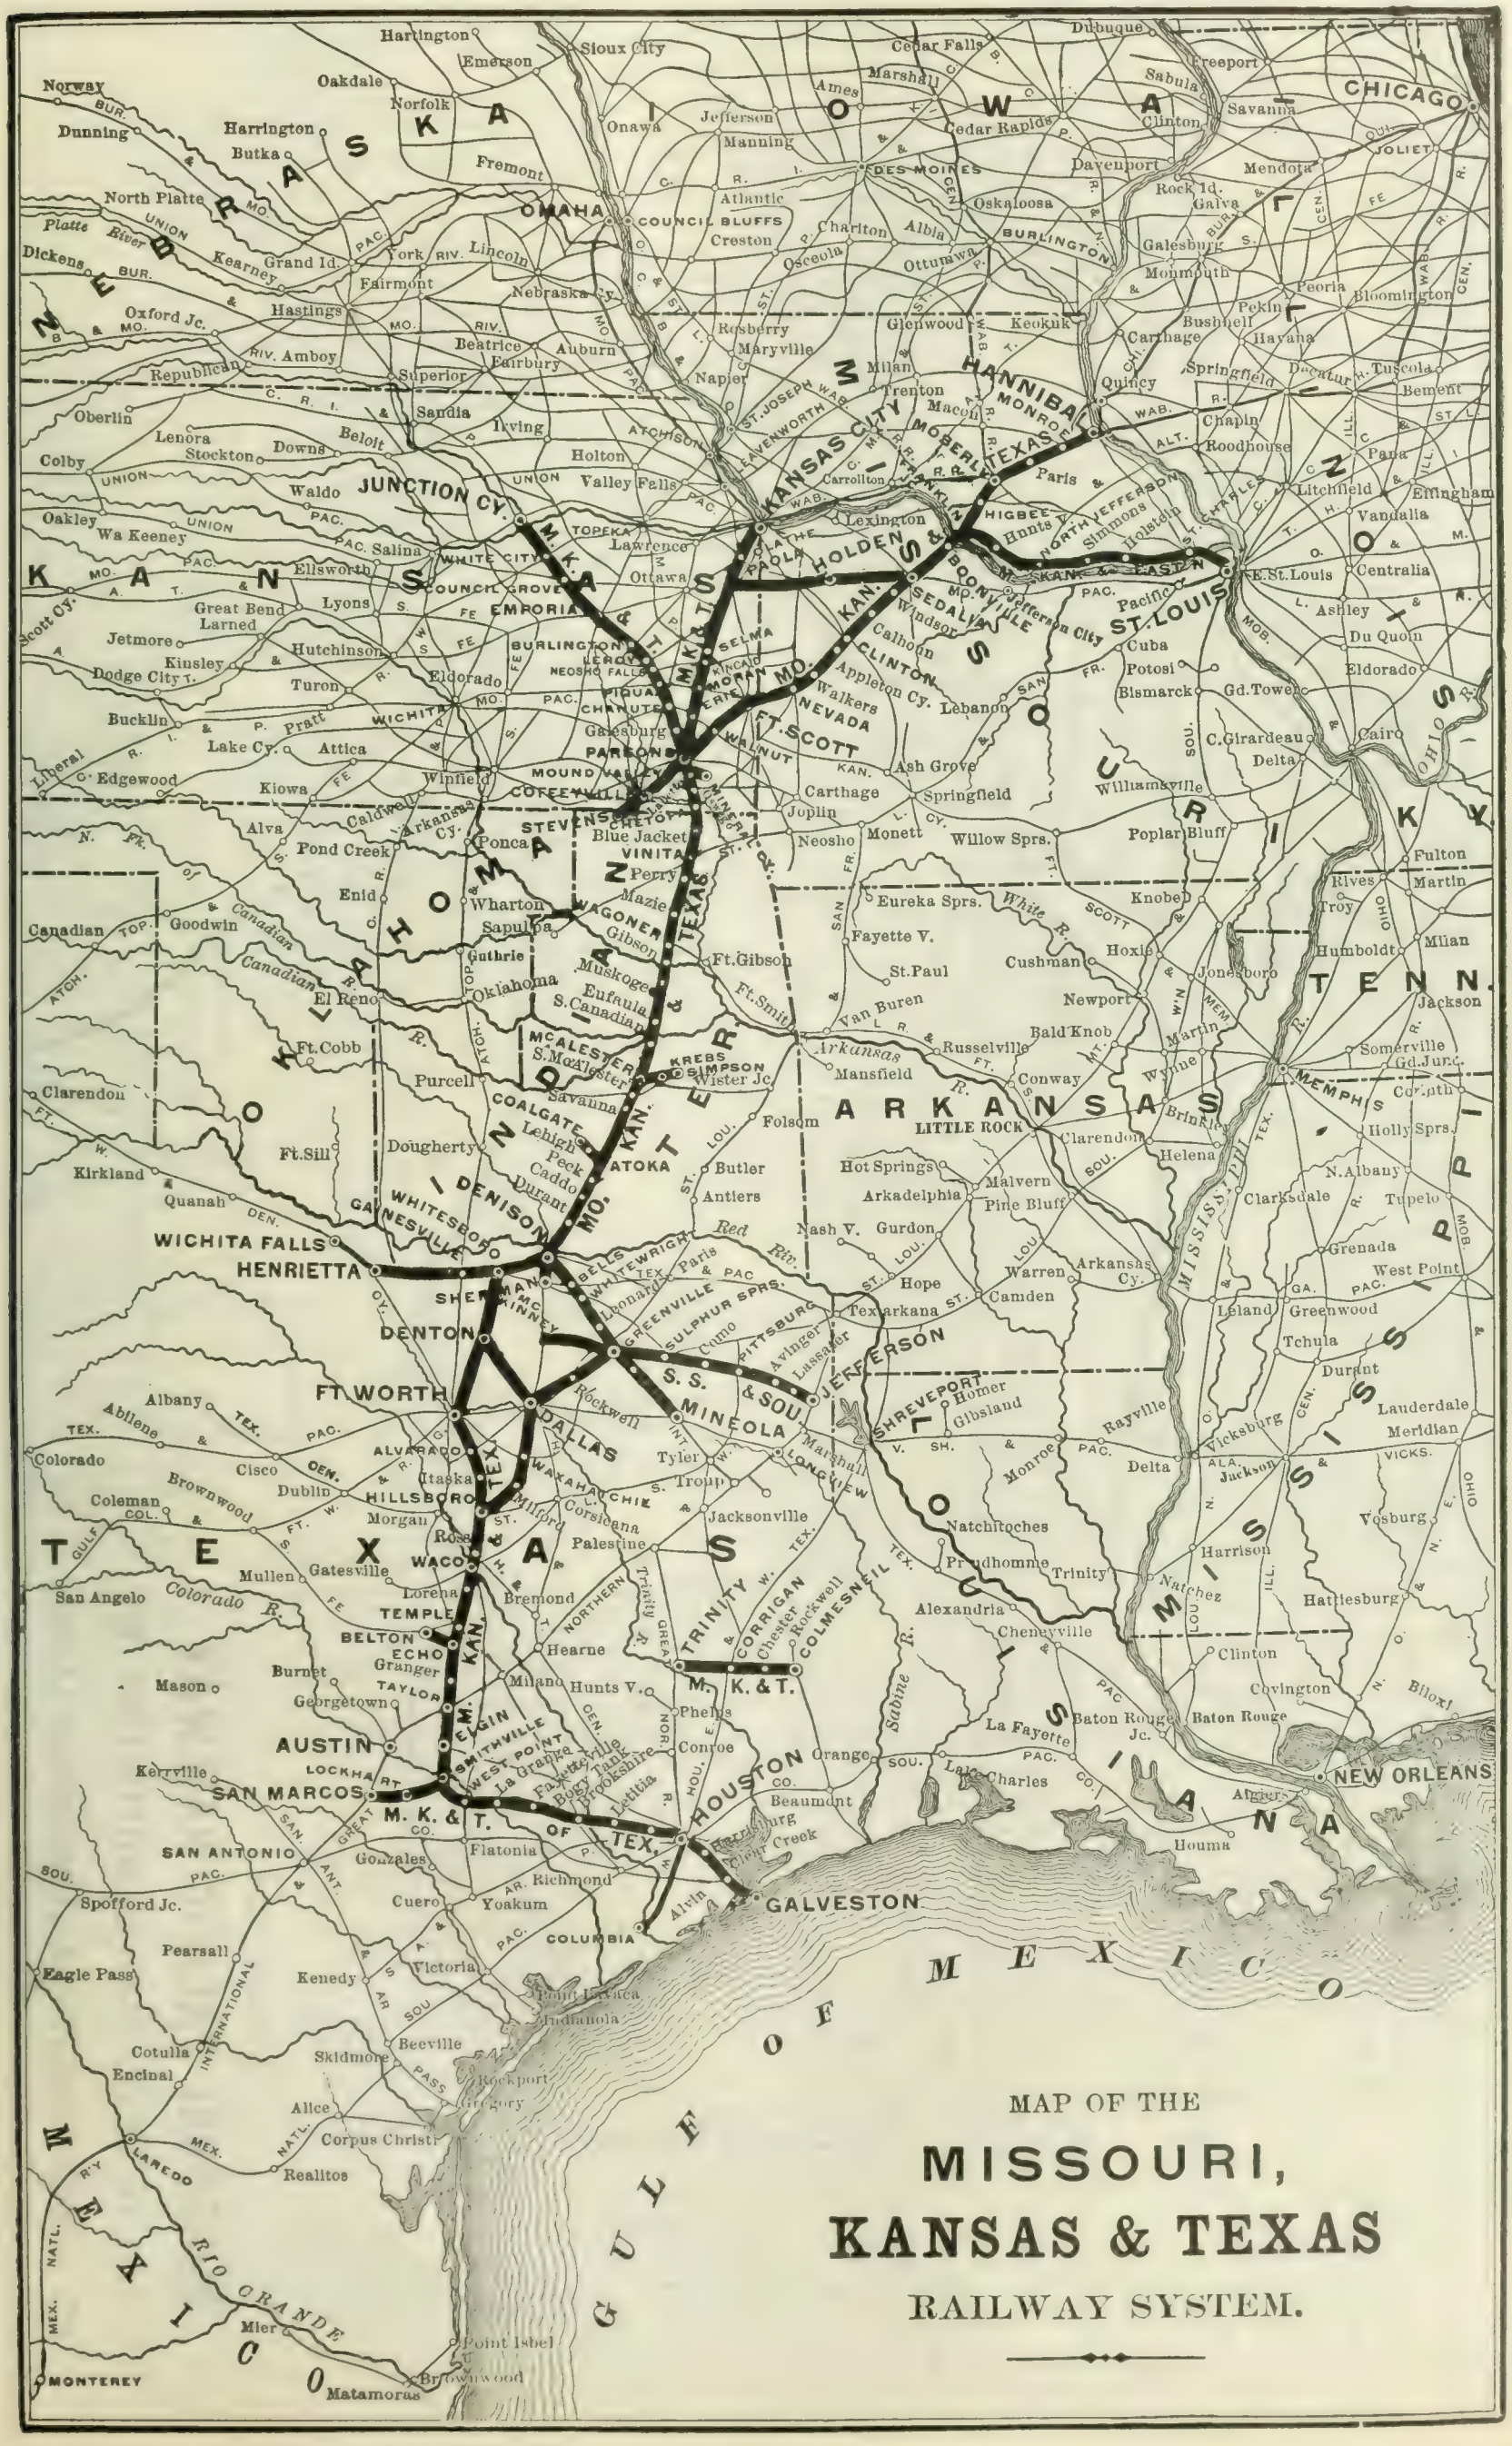
Also owns all capital stock of Central Branch Union Pac., etc., 388 m.; St. Louis Iron Mountain & Southern and leased lines, 1,773 miles. Grand total Missouri Pacific mileage January 1, 1899, 5,324 miles.



ORGANIZATION, LEASES, &C.—The Pacific RR. of Missouri was sold in foreclosure September 6, 1876. The present company was a consolidation in August, 1880, embracing the Missouri Pacific and minor roads. The bonds of the proprietary lines are practically all pledged to secure Mo. Pacific loans. The Iron Mountain stock is mostly owned by the Missouri Pacific. Control of the International & Great Northern was secured in 1892 and of Central Br. U. P. in 1898. In 1899 arrangements were made for purchase of Atchison Colorado & Pacific and At. Jewell County & West. (included with Central Branch U. P. mileage above), see V. 68, p. 329, 520. As to Texas & Pac., see below.

BONDS.—The *consolidated mortgage* is for $30,000,000—trustees John F. Dillon and Edward D. Adams—the balance unissued is in trust to redeem prior bonds due if deemed best. Abstract in V. 47, p. 287.

The *collateral trust bonds due* 1917 (Union Trust Company of New York, trustee) are secured by mortgage bonds of new roads at $12,000 or $15,000 per mile; these embracing the line from Fort Scott, Kan., to Pueblo, Col., etc. For securities pledged, etc., see V. 46, p. 678.

HISTORY, &C.—Control of the Lake Shore and Michigan Central roads was acquired in 1898, as stated below. In 1898-9 their earnings were reported separately, but the $3,810,874 dividends on their shares held by the Central caused the large increase in the item "other income," offset by a like amount of interest on the collateral bonds issued for their purchase. V. 69, p. 495.

The Fall Brook Ry. lines have been leased since May 1, 1899, forming, together with the Beech Creek RR., the Pennsylvania division.

On July 30, 1899, the directors of the N.Y. Central voted to lease the Boston & Albany RR. for 999 years at a guaranteed rental of 8 per cent per annum on the $25,000,000 B. & A. stock in quarterly instalments. The Central stockholders will vote upon the lease on Nov. 16, 1899, adding 389 miles and a through line to Boston to the Central system. V. 69, p. 78, 492, 695; see also V. 69, p. 178, 228, 333, 694.

CAPITAL STOCK.—In May, 1895, $4,571,700 stock was listed on the Exchange, making total listed $100,000,000; V. 60, p. 874. Dividends on stock registered in London are payable in gold at 49½d. to dollar.

BONDS.—Description of debentures was on page 3 of SUPPLEMENT of April, 1895. They are all secured by the refunding mortgage of 1897 equally with the 3½s. *Ref. mortgage* is for $100,000,000, of which $70,377,333 reserved to retire all existing bonds at or before maturity and $14,622,667 for premiums; the remainder ($15,000,000) is reserved for new construction after 1903. The mortgage covers all the road, franchises, equipment, etc. In Feb., 1899, $32,447,000 3½s of 1897 had been issued to retire $26,893,912 of old bonds. V. 68, p. 380.

Collateral trust 3½s of 1898 are secured respectively by deposit in trust with the Guaranty Trust Co., mortgage trustee, of stock of the Lake Shore & Michigan Southern and Michigan Central RRs. at the rate of $100 of L. S. & M. S. stock for each $200 of bonds and $100 of Mich. Cent. stock for each $115 of bonds outstanding. The total authorized issues of 3½s are $100,000,000 for Lake Shore and $21,550,000 for Michigan Central. The loans are secured by separate deeds of trust. See V. 66, p. 288, 336, 760, 811.

GUARANTIES.—The company guarantees the securities of its leased lines to a considerable aggregate—see separate statement for each company marked with a ¶ in the table of mileage preceding. It also guarantees Western Transit Co. 4½s for $1,000,000 due February, 1903.

GENERAL FINANCES.—The refunding of the $70,377,000 of old high-interest-bearing bonds into the 3½s of 1897 during the years 1898 to 1905 will effect a saving of $1,200,000 per annum in interest charges; to June 30, 1899, about $27,000,000 old bonds had thus been retired; saving in charges by refunding in 1898-9, $437,342.—V. 69, p. 495.

In July, 1899, the company had acquired $45,269,600 of the capital stock of the Lake Shore road in exchange for 3½ p.c. bonds (see above), leaving $4,196,900 afloat, including $533,500 guaranteed 10 per cent dividends (see V. 66, p. 288, 336, 1238), and also $16,127,500 of Mich. Central stock, leaving $2,610,500 still outstanding. V. 66, p. 760, 1238.

ANNUAL REPORT.—Fiscal year ends June 30. Report for 1898-99 was given at length in V. 69, p. 488, 495. See also editorial p. 469.

HISTORY.—A consolidation in 1872 of the New York & New Haven and the Hartford & New Haven. In years 1892 and 1893 acquired control of several companies whose bonds are given in table above. The Housatonic, Shore Line, N. Y. Prov. & Boston and the Shepaug Litchfield & Nothern have been absorbed by consolidation. See also Old Colony. As to President Clark's retirement see V. 69, p. 441, 646. —V. 69, p. 742.

In October, 1895, a controlling interest in the New England RR. was acquired, and in 1898 practical amalgamation was effected. See below.

In 1895 acquired the entire stock of the Fall River SS. line and later the entire stock of the Providence & Stonington Line.

Electric Railways.—In 1895 control was acquired of the Stamford St. Ry. and the Meriden Electric Ry. Electric railway between Hartford and New Britain, 10 m., was opened in May, 1897, and additional lines, about 18 miles, in 1899. V. 67, p. 732; V. 69, p. 742.

CAPITAL STOCK.—Stock authorized, $100,000,000. It may be issued for improvements, buying stocks and bonds of leased roads, &c.; $16,397,200 will be needed to take up the convertible debentures in 1903. (V. 56, p. 289, 373, 579.) In June, 1898, application was made to list on N. Y. Stock Exchange $7,100,000 new stock, to be issued in exchange for the shares of the New England and Shep. Litch. & Nor. RRs., which increased the total issue to $54,733,200. Of the new stock $3,351,000 was listed July 1898. V. 66, p. 1090, 1138.

DIVIDENDS.—	1873-1893.	1894.	1895 to Sept.,'99, (incl.)

BONDS.—The *convertible debentures* of 1893 for $16,397,500 are exchangeable at option of holder "on April 1, 1903, or within 60 days thereafter, and no longer," for company's stock at par. If not then exchanged they will be paid in cash April 1, 1908. See V. 55, p. 1035, and description page 4 SUP. of April, 1895. Non-convertible currency debentures for $10,000,000 were authorized in April, 1897. Under the lease New Haven road "assumed" the debt of Old Colony. In 1897, $5,000,000 New England 5s were guaranteed and sold. V. 64, p. 611.

ORGANIZATION.—The Philadelphia & Reading RR. (chartered April 4, 1833) and the P. & R. Coal & Iron Co. were sold in foreclosure Sept. 23, 1896, and reorganized per **plan** in V. 61, p. 1109.

In the reorganization the 41 millions of old stock and the 56¾ millions of old preference income bonds were assessed 20 per cent, the stock then receiving 100 per cent in new common and the preference incomes, common and preferred stock in certain proportions.

The "Reading Co." in the reorganization of 1896 acquired the security holdings, real estate, equipment, etc., of the old Phila. & Reading RR. Co.; also $20,000,000 stock and $20,000,000 bonds of the Phila. & Reading Ry. and the $8,000,000 stock of the Coal & Iron Co., and against all this property issues its own securities. See V. 64, p. 709.

The property of the Reading Company, as distinguished from the property of the Phila. & Reading Ry. Co. (which owns the railroad but no equipment), and of the Coal & Iron Co., consists of the following:

Railway equip. leased to Ry. Co. for 8 p. c. yearly.....	$18,110,041

VOTING TRUST, ETC.—All classes of stock of the new company are to be held by voting trustees (J. Pierpont Morgan, Frederic P. Olcott and Henry N. Paul) for five years, and thereafter until 4 per cent cash dividend per annum shall be paid on the first preferred stock for two consecutive years, though the trustees may in their discretion surrender the stock at an earlier date. As to stock privileges see V. 64, p. 709. See copy of **voting trust agreement** V. 64, p. 955, and also SUPPLEMENT of April, 1897, page 5.

BONDS.—The *New General Mortgage* 4s (**abstract** V. 64, p. 612) are secured by mortgage and pledge of all properties and securities embraced in the reorganization, and also all other property acquired thereafter by use of the new bonds. They will have a sinking fund out of the revenues from the Coal & Iron Company, but are not subject to compulsory redemption prior to maturity. The new mortgage is also, subject only to the bonds for which reservation is made, based upon properties or securities of all the lines of railroad owned, including the Philadelphia & Reading Railway Company proper, 391 miles; various leasehold lines, 597 miles; all the property of the Coal & Iron Company, or the securities thereof, representing nearly 200,000 acres of coal and timber land; equipment valued at about $12,000,000, previously subject to about $5,000,000 of car trust obligations [acquired under the plan[and also the marine equipment.

Furthermore, it has a first lien upon a majority of the capital stock of various companies in the system owning 448 miles of railroad, of which 195 miles are leasehold lines included in the 597 miles above stated, and also on bonds of roads in the system (other than the P. & R. Ry. Co.) amounting to $34,265,936 par value. The securities are said to have earned in 1894-95 an income of $585,-000, of which $448,000 was received as dividends—list in V. 64, p. 613.

The new mortgage is for $135,000,000, issuable only as follows:

To take up undisturbed bonds of the Reading RR. and Coal & Iron Co.....	$64,631,000
For future construction, equipment, etc., at not over $1,500,000 per annum under stringent provisions.....	20,000,000
Issued at once for reorganization purposes	50,369,000

Improvement mortgage 6 p. c. bonds of 1873 due Oct. 1, 1897, were extended at 4 p. c. for 50 years from April 1, 1897, payable in U. S. gold and guaranteed p. & i. by the Reading Co. V. 64, p. 470; V. 65, p. 516. The *consol* 5s of 1882 for $5,673,042 were also extended at 4 p. c. till Mar. 1, 1937, the Reading Co. and Coal & Iron Co. becoming responsible. See V. 65, p. 870, for contract. V. 65, p. 152, 870.

The *terminal mortgage bonds* are Reading RR. bonds, and are secured by a mortgage upon all the property of the Terminal Co. and by a traffic contract between Reading and the Terminal Co. The trustee is the Provident Life & Trust Co. of Phila. Amount authorized, $8,500,000. See description in V. 64, p. 85 and guaranty V. 60, p. 732.

For *ten-year sinking fund loan* see January, 1895, SUPPLEMENT.

The *coal trust certificates* under agreement of May, 1895, are not redeemable until April, 1904—see V. 63, p. 838 and Jan., 1895, SUPP.

As to *Philadelphia Subway Loan* the receivers were authorized in June, 1894, to pay interest (and principal at maturity) of not exceeding $3,000,000 out of a total issue of $6,000,000 of 3 to 3½ p. c. bonds of City of Philadelphia, to abolish grade crossings. The amount outstanding will be increased to this figure on completion of the subway. Principal is payable after ten years from date of loan in 20 annual instalments. See V. 58, p. 1110; V. 62, p. 950; V. 63, p. 881.

As to the outstanding old bonds (see V. 64, p. 614), the Reading Company and the Coal & Iron Co. covenant to pay their interest when due and to pay or extend their principal at maturity.

ORGANIZATION.—Organized under laws of Kentucky, and known as the "Huntington" lines, Mr. C. P. Huntington being President. Under plan for readjustment of Central Pacific securities, the Southern Pacific in 1899 acquired the entire capital stock of the Central Pacific. See that company's statement; also see below.

PROPRIETARY LINES.—These, with a total mortgage indebtedness June 30, '98, of $156,983,601, are mostly owned—only $16,253,163 out of their total stock of $197,257,552 not being held on July 1, 1898, by the Southern Pacific Co. "OMNIBUS LEASE," see SUP'T of Jan., 1899.

STOCK, ETC.—Total stock authorized, $200,000,000, including $67,274,200 exchanged in 1899 for Central Pacific stock—see Central Pacific and V. 68, p. 378, 725; V. 69, p. 132. July 1, 1898, bills payable, $1,425,000.

BONDS.—The fifty-year 4 per cent collateral trust gold bonds authorized by the Southern Pacific Co. in 1899, in connection with its acquisition of the stock of the Central Pacific, are for the total authorized amount of $36,819,000, and are subject to call at par on six months' notice. The first issue of $28,818,500, secured by the $67,274,200 common and $12,000,000 preferred stock of the Central Pacific, was issuable forthwith. The remaining $8,000,000 can be issued from time to time only as an equal amount of Central Pacific preferred is received and added to the collateral, $5,000,000 of this stock being reserved for improvements and additions on the Cent. Pac. at not exceeding $200,000 yearly—see Cent. Pac. and V. 68, p. 378. See Mortgage Abstract, V. 69, p. 859.

The new first refunding 4s and 30-year gold 3½s issued by the Central Pacific are unconditionally guaranteed, principal and interest.

GENERAL FINANCES.—The issue of $28,818,500 collateral trust bonds in 1899 for part purchase of Central Pacific stock increases the Southern Pacific annual charges by $1,152,760, making total net annual interest charge on account of the Central Pacific $4,862,760, as against $4,269,905 for the year ending June 30, 1898, or an increase of $592,855. Against this increase there was a surplus on the Central Pacific for the last year, after charging all betterments to earnings, of $1,561,463, and a surplus on the Southern Pacific of $2,823,344, a total of $4,384,807.

This mortgage in January, 1899, covered 1,982 miles, of which it is an absolute 1st lien on 724 miles. The supplemental mortgage issued in 1898 limits this loan to $30,000,000, (exclusive of bonds to be issued against underlying securities), of which not exceeding $26,000,000 shall be issued until completion of coast line from Surf to Ellwood. It also provides that the bonds assumed in the consolidation of 1898 are not to be increased, and that in case of increase of the mortgage indebtedness, except for newly-acquired property, the stamped bonds are to share pro rata in the security given by the additional mortgage. (V. 67, p. 1111.)

Pac. item V. 65, p. 778.

STOCK.—Authorized $120,000,000 *common* and $60,000,000 *five per cent non-cumulative preferred stock.* No additional mortgage can be put upon the property, nor can the amount of the preferred stock be increased without the consent of holders of a majority of the preferred. The preferred stock is redeemable in cash at par.

Both classes of stock of the new company (except sufficient to qualify directors) are deposited with three stock trustees. The stock shall be held by the stock trustees and their successors, jointly till July 1, 1899, and for such further period (if any) as shall elapse before the preferred stock shall have paid five per cent cash dividend in one year, although the stock trustees may, in their discretion, deliver the stock at an earlier date. Certificates of beneficial interest, entitling the holder to dividends, are issued in lieu of the stock so deposited. Stock trustees, J. Pierpont Morgan, Charles Lanier and George F. Baker. History.—Incorporated in Utah June 23, 1897, to succeed per plan of Oct. 15, 1895 (V. 61, p. 704, 705, and V. 64, p. 424), the Union Pacific *Ry.* Company took possession of the Union Pacific main line Feb. 1, 1898, and of the Kansas Pacific lines on April 1. A full statement to New York Stock Exchange as to the organization of the new company was in V. 66, p. 618; see also V. 67, p. 790. In Oct., 1899, most of the stock of the Oregon Short Line RR had been acquired.

Oregon RR. & Navigation Co. is controlled through ownership of a majority of its stock by the Oregon Short Line and the Union Pac. V. 69, p. 181. The reorganized U. P., therefore, operates through to Portland, Ore., as did its predecessor.

The former Julesburg branch of U. P. Denv. & Gulf, La Salle, to Julesburg, 151 miles, was transferred to U. P. on Feb. 25, 1899. V 68, p. 381.—(See V. 66, p. 521).

Stock.—The rights of the preferred stock are set forth in the company's articles of association as follows: "Such preferred stock shall be entitled in preference and priority over the common stock of said corporation to dividends in each and every fiscal year at such rate not exceeding 4 per cent per annum, payable out of net profits, as shall be declared by the board of directors. Such dividends are to be noncumulative, and the preferred stock is entitled to no other or further share of the profits."

The U. P. stockholders voted Jan. 10, 1899, to increase the common stock from $61,000,000 to $88,460,100 to acquire, dollar for dollar, the Oregon Short Line stock, the Short Line stockholders paying in addition $3 per share.—V. 68, p. 87; V. 67, p. 1209.

In Oct., 1899, the preferred stock was increased from $75,000,000 to $100,000,000 to retire about $14,000,000 Oregon Short Line "B" bonds and $11,000,000 Or. RR. & Nav. pref. stock, and also the common stock by $7,718,600, viz.: from $88,460,000 to $96,178,700, to be exchanged for the $7,718,600 Or. RR. & Nav. common not already owned by the Short Line Co., the portion owned by the latter being pledged to secure the "B" bonds. The Or Short Line "A" bonds were offered bond for bond Un. Pac. 4s now in the treasury. Under this arrangement all the stock of the Or R. & Nav. will be held by the Short Line Co. and all the income bonds of the Short Line Co. will be retired. V. 69, p. 492, 592, 796. In Sept., 1899, a majority of the Or. Short Line "A" bonds had been acquired. V. 69, p. 695.

Dividends.—First on pref., 1½ p. c., Oct. 31, 1898. V. 67, p. 635. On Apr. 19, 1899, 1½ p. c. was paid on pref. On Oct. 2, 1899, 2 p. c. (V. 69, p. 492.)

Bonds.—The new first mortgage (Mercantile Trust Co., trustee), is for $100,000,000, of which $90,000,000 was issued for the acquisition, free and clear of all Government and other liens, of the 1,854 miles composing the former Union Pacific and Kansas Pacific lines. In March, 1899, the first M. bonds had been issued to the amount of $96,500,000, of which $5,000,000 held in the company's treasury. The remaining $3,500,000 may be used pursuant to the mortgage in the construction or acquisition of betterments, improvements, equipment or extensions, to be subject to the mortgage lien, at a rate not exceeding $1,500,000 per annum. The property on which the loan is a first lien includes the telegraph terminals, equipment, and, directly or indirectly, land grants. Statement to N. Y. Stock Exchange. V. 66, p. 618.

Lands.—The new first mortgage covers directly or through beneficial ownership over 6,500,000 acres of land, situated in Nebraska, Wyoming, Colorado, Utah and Kansas, the value of which has been estimated at $8,977,500. It also covers further notes or contracts for lands sold, which the Land Department considers safe, to the extent of $2,196,858, and notes representing 2,402,000 acres of lands sold which the Land Department considers doubtful or bad, and the lands for which, if not paid for, revert to the company. See V. 67, p. 791.

General Finances.—The free assets held in the company's treasury consist of large amounts of bonds and stocks of auxiliary railroad and other companies, such as the Union Pac. Coal Co., the Pac. Express Co., various water, depot, etc., companies, and yielded during the last fiscal year a net income of approximately $500,000, this income being additional to the earnings from the railroad lines. See stock above.

Has traffic agreement with and five-year option to purchase $1,000,000 stock and redeem $1,000,000 bonds at par of the Wyoming & Southern RR., to be built from a point near Fort Steele to the Colorado State line, near the North Platte River, of which 33 miles to Saratoga was to be completed Oct. 15, 1899, and extension then made to Grand Encampment and Battle Lake, 44 miles. V. 69, p. 334.

HISTORY, &C.—Successor in 1889 to the Wabash St. Louis & Pacific, which was sold in foreclosure. See SUPPLEMENT up to January, 1889.

LEASE.—The Boone Co. & Booneville RR. is leased till May, 1903. The Brunswick & Chillicothe was leased to St. L. Kan. City & Northern for 999 years. Its bonds bear 6 per cent interest till August 1, 1900, then 8 per cent till maturity. Entrance to Chicago is secured over the Chicago & West Indiana, of whose stock this company owns $1,000,000.

In March, 1898, leased from Grand Trunk for long term joint use of its railroad between Windsor, Ont., and Black Rock Station, 4 miles from Erie Station at Buffalo, and also between Welland Junction and Suspension Bridge, N. Y. Erie tracks are used into Buffalo. V. 66, p. 812.

CAPITAL STOCK.—The stock is $24,000,000 preferred 7 p. c. non-cum., and $28,000,000 common; par, $100.

BONDS.—Abstracts of the mortgages of 1889 were in V. 49, pp. 270-273. The *first mortgage* covers all the lines owned both east and west of the Mississippi, excepting the Detroit & Chicago extension. 150 miles, and the Des Moines Division, 94 miles—see below—and enough bonds are retained to retire the prior liens on roads west; but the *second mortgage* covers only lines east of the river at time of organization in 1889, 1,012 miles. As to the Compton decree ($339,929 with 6 p. c. from May 1, 1888,) see V. 65, p. 926; V. 66, p. 39. Of the *debenture mortgage* bonds, $3,500,000 are series A (preferred in respect to interest payments only) and $26,500,000 series B. Series "A" received 6 per cent interest in 1890; in 1891, 6; in 1892, 6; in 1893, 6 per cent; in 1894 and 1895 none; in 1896, 1 per cent; none since—see V. 66, p. 1142 and V. 67, p. 1358.

The *Detroit & Chicago Extension* bonds cover 150 miles, completed in May, 1893, from Montpelier, Ind., to Clarke Junction, 26 miles, from Chicago. Mortgage is for $3,500,000; abstract in V. 54, p. 1049.

The *Des Moines Division* bonds of 1899 ($1,800,000 authorized) cover 110 miles, equipment costing $250,000, etc. See full description in V. 68, p. 574, and advertisement in CHRONICLE of March 18, 1899; also V. 69, p. 335, 796.

GENERAL FINANCES.—June 30, 1899, there were bills payable, $880,-473, including $212,346 (of which $200,000 had been paid off Sept., 1899) and $668,127 rolling stock notes payable monthly, last one maturing Nov., 1903, chargeable to operating expenses. (V. 69, p. 550.)

In March, 1898, began running trains into Buffalo, N. Y., using 246 miles of Grand Trunk Ry. under joint trackage agreement. The Wabash Co. will pay the Grand Trunk a rental commencing at $275,000 per annum, to be increased at the end of every five years by $25,000 a year, until it reaches a maximum of $350,000 per annum. The Wabash will also pay its quota of the cost of operating and maintaining the joint section. (See V. 66, p. 812.) The new equipment required for this connection was to be acquired with car trusts. V. 69, p. 550.

The refunding of 7 per cent bonds due in 1895 into first mortgage bonds of 1889 saved the company $180,000 per annum.

In January, 1899, sold $1,600,000 Des Moines Division bonds.—V. 68, p. 189, 574.

THE MUNICIPAL BOND MARKET.

The municipal bond market at the moment is dull. This is owing partly to money market conditions but also to the nearness of the November elections. Many places submit propositions for new bond issues only at the general election. Hence just preceding such election there is a sort of interregnum, old issues having been exhausted and new issues not yet authorized. Tight money always induces the withholding of some offerings. No doubt New York City in deferring its bond sale first set for October 3 had this consideration in mind.

We furnish below a record of the monthly sales for the last five years. For the nine months to September 30 the total runs ahead of last year and also ahead of all the other years given except 1897. Our figures do not embrace temporary loans, which, if included, would be counted over and over again. Some large bond offerings are in prospect the next few months Besides the New York City loans for $9,087,107, to be sold October 18, Pittsburg voters on September 19 approved propositions for $7,000,000 bonds. Philadelphia electors next month will decide on an issue of $12,000,000 for improvement of the water supply, and Denver, Col., will pass on the proposition to issue $4,700,000 water-works bonds.

BOND PROPOSALS—DETERMINING LEGALITY BEFORE BIDDING.

A few years ago (STATE AND CITY SUPPLEMENT of October 1896 and April 1897) we made quite an extensive investigation into the methods in vogue for disposing of municipal bonds and receiving bids for the same. We showed wherein these methods were defective, and pointed out some of the changes that appeared called for in the interest of issuer and bidder alike. For one thing, it seemed desirable that the practice then growing up of exacting a cash deposit, either in the shape of money or a certified check, as a condition precedent to the receipt of bids, should be encouraged. In various other particulars there was call for amendment and improvement—in making the bids clear and unequivocal, in having a form not capable of being misconstrued or misunderstood, and in presenting the terms and conditions as to both bond and proposal with fullness and exactness.

In the time that has elapsed since then, there has been progress in all the directions here indicated. And the improvements have been mainly in the line suggested by us. The changes that have occurred or are in progress may be grouped under three heads. (1) The requirement of a deposit or money forfeit as a guaranty of good faith and to ensure performance of the contract is now met with in the vast majority of cases, instances where this provision is not inserted forming exceptions which prove the rule. (2) There is a growing disposition in favor of requiring bids to be made on official forms or blanks. (3) More and more there is a determination to insist that proposals must be absolutely free from all conditions, many issuers of bonds going so far as to bar out proposals made contingent upon the bonds being declared legal by counsel. That is, it is required that the intending purchaser shall satisfy himself of the legality of the issue *before* putting in an offer; in other words, that a proviso in the bid making acceptance of the bonds conditioned upon their being found in accord with legal requirements shall vitiate the bid and result in its rejection. The expediency of this last proviso we purpose considering in this article.

The incorporation in a proposal of reference to the legality of the bonds will to most persons appear rather superfluous. Obviously bids are always predicated upon the idea that the municipality has created an obligation in every way free from legal defects. Manifestly the bidder is not bargaining for an imperfect or defective security. If the issuer has not a valid obligation to offer, it is unable to fulfill its part of the contract, and as a necessary consequence it can not hold the bidder to his end of the contract or force him to take bonds which it either had no right to put out or which it had spoiled in the making. Hence, as far

as those putting in bids are concerned, there would seem no occasion for mentioning the matter at all in the proposal, the bidder's position being as strong without that clause as with it.

But the question is broader than this. Who is to determine the point of legality, and how is it to be determined? Presumably the bidder will act in accordance with the advice of his counsel. As those offering to take the bonds are in the majority of cases municipal bond houses, making a specialty of dealings in this class of investments, and who for their own protection are obliged to consult the best authorities, an opinion thus obtained would, as a matter of course, be entitled to great weight. However, if the opinion were disputed, it would be by no means conclusive. Again, in the general competition for high-class investments, other parties have entered the field besides municipal bond dealers. In the smaller places particularly local moneyed people often actively compete with the regular dealers. It is conceivable that these parties, being novices at the business, might not be so well advised, because relying upon lawyers not altogether qualified to express an opinion on such a point. Is the municipality to be bound by an utterance from such a source? Manifestly not. It is even possible that an opinion might be obtained to order by a bidder who had been awarded an issue and who subsequently repented of his bargain. We regret to say that it cannot be positively affirmed that a pretext of that kind is not sometimes resorted to, to the detriment of the municipality having bonds for sale.

It is not to be inferred that in any or all of these cases the municipality would be without redress. If it chose to push the matter and the bidder were a responsible party, it could force him to abide by his offer. But it all comes to this, that the question of legality can be finally determined only by a court of law. Such a course might mean much inconvenience, and it certainly would mean considerable delay, a condition of things which bond issuers are usually very desirous of avoiding. Heretofore it has been the practice of bidders not to concern themselves about the question of legality until after the sale, when they would know whether the bonds were to be awarded to them or not. It can not be said either that the practice has worked any great hardship as a rule. It has been common enough to find defects in the bonds themselves or the proceedings leading up to their issue, but these were defects which the municipal officials were quick to recognize, when pointed out, and which they were very anxious to cure. The general result has been that the matter was arranged to mutual satisfaction after a minimum of delay. Of course it can not be denied that the bond seller has occasionally been the victim of unscrupulous bidders.

It has always been considered that bidders were perfectly free to determine the question of legality *after* an award to them. Nor is there any reason to think they are precluded from raising the question now in the courts, even where the municipality says they must satisfy themselves on that point beforehand—always providing the bidder is willing to take the risk of a decision against him. If the bonds are really illegal, the existence of a clause in the offering saying that intending purchasers are supposed to settle that question for themselves in advance could hardly serve to make them valid obligations. And if they are not valid, it will not be contended that a court of law could force a buyer to take them, no matter what the proviso in the offering or form of bid. He has contracted for a security; if that security is invalid, it does not exist, and he could not be compelled to pay the contract price for the mere paper.

It is not, however, from that point of view that the existence of the provision referred to possesses importance. The intending buyer is bound to take cognizance of it because it is made a condition precedent to the receipt of his bid. The question is not whether he is to have the right of appeal to the courts to determine if the bonds are legal, but whether, in case he fails to satisfy himself on the point of legality, he is to lose his right to bid. It will be observed that this is a totally different question. The municipality insists that if he has any doubts he must remove them before he makes his proposal to take the bonds. In brief, if he will not accede to this requirement, his bid will not be considered, and he loses all chance of obtaining the bonds. The force of this proposition was strikingly shown at the time of the New York City bond sale in August of last year. One of the largest and, as it happened, the highest bidder, stipulated that their proposal was to hold good only in case their counsel approved the legality of the issue. It will be noted that in this case there was no specific requirement on the part of the municipality that the legality of the issue should be settled in advance. But the syndicate proposing to buy the bonds undertook to reserve for itself the right to consider the question of legality subsequent to the receipt of the tenders and the making of the award. Nevertheless the city authorities ruled that a proposal qualified in that way was not unconditional, and they accordingly refused to consider it, and the bonds went to the next highest bidder. The question whether a bid contingent upon the legality of an issue is in fact a "conditional" bid, in the sense that the word is ordinarily understood, is an interesting one, and it would have been useful to have had a judicial ruling on the point. The award was contested but the case was never carried to a conclusion.

The right of a municipality to insist that bids will not be received except upon the distinct understanding that the intending purchaser has fully assured himself as to the legal status of the bonds is perhaps not open to question. Such a requirement would seem to be clearly within the sphere of official discretion and authority. Nor is it difficult to perceive the reasons for such a procedure or the advantages that accrue from it. To leave the question of legality open until an award has been made obviously involves more or less delay, even where the utmost expedition is used. In some cases it may involve very considerable delay, since custom prescribes no definite limit of time within which a party to whom an award has been made must reach a conclusion on this all-important point. Nor is it possible for the municipal authorities to act arbitrarily in the matter unless a date has been set beforehand; if a successful bidder says he needs more time to fully ascertain legality, it is not easy to say him nay. To insist that the whole matter shall be disposed of before the proposals are put in or else that his bid cannot be considered, obviates this difficulty and delay, and that is its object.

But there is another question that comes up, and that is a question of policy and expediency. Does it pay to insert a proviso of that kind and exact compliance with it? From the standpoint of those making it a business to buy municipal bonds, there is plainly

an objection to such an arrangement. If they paid regard to it, they would be obliged to go to the trouble and expense of a legal investigation in every case where they put in a bid, whether they got the bonds or not. It may be thought that this is not a serious objection; that the larger bond houses hire their counsel by the year, and that this being so, it matters little whether such counsel are called upon to deliver a few opinions more or less. But this is a wholly mistaken view. It is true the counsel employed are thoroughly versed in the subject treated; know all the laws affecting bond issues in the different States, and can reach a thoroughly reliable conclusion with the expenditure of very little time and effort. It is equally true that such counsel cannot be engaged by the year. As a matter of fact, it is not the practice among municipal bond houses to obtain legal opinion in that way. The practice is to pay for each opinion separately, and the cost of these examinations varies, depending upon the work involved (though some attorneys gauge their fees by the amount of the issue), the charge running all the way from one or two hundred to a thousand dollars. As the regular bond houses put in hundreds of bids a month, it follows that they would have to incur an enormous expense in the aggregate if they had to secure legal advice in advance in case of every bid, whether the bonds went to them or not. If the requirement, therefore, should become at all general, it follows that one of two things must ensue. Either bids will be withheld in a great many cases, or the dealers will undertake to recoup their outlays by lowering their bids.

It is possible that the larger municipalities might not suffer. These are always to be put in a class by themselves. But the smaller places might not be so fortunate. It is to be remembered that bond houses are under no obligation to put in proposals, and if they do not care to incur the expense without assurance of an award, they are at liberty to pass the offering over. Doubtless this is precisely what would happen in case of the smaller places. It behooves these places, therefore, to be careful about insisting upon a requirement which might have the effect of narrowing competition and enhance to them the cost of borrowing. It is well to bear in mind, too, that the responsibility for delays in securing a legal opinion does not always rest with the bond houses—in fact, in the great majority of cases, the fault lies with the municipality itself. The successful bidder, if of character and standing, having obtained the award and in part paid for the purchase by his deposit check, would be positioned so as to be anxious to complete the purchase and market the security. The usual course for such a house, when an award has been made to it, is to write and procure certified copies of the ordinances and other proceedings leading up to the proposed issue. These are at once turned over to the attorney, and if he finds that all the requirements have been met with, the deal is quickly closed. If any papers are missing, or any legal step is apparently lacking in the process, this attorney opens communication with the legal adviser of the municipality. Subsequent delays are nearly always due to the officials themselves. These delays are apt to be greatest in the case of the smaller places, because the local legislative or municipal bodies meet only at long intervals and the officials move with unwonted slowness. But it ought to be possible to provide a remedy without resort to a requirement which, in the long run, would seem more likely to prove detrimental than beneficial.

Whether the arrangement is to be regarded with favor or not, it has been put in practice by a number of places. Doubtless the very incident related above with reference to New York's experience has had much to do with bringing about the step as a precautionary measure. It is noteworthy, too, that some of the minor places—precisely those which might be supposed to be most in danger of suffering from adherence to such a policy—are conspicuous as illustrations of the movement. The experiment is being tried in widely-separated localities. Extending our search back six months, to the time of the last issue of the STATE AND CITY SUPPLEMENT, we find that Pendleton, Oregon, insisted on this proviso in the sale of its $150,000 bonds last June, it being required that bidders must satisfy themselves of the city's right to issue bonds before bidding. In Ohio this form of proposal seems to be more prevalent than anywhere else. Canton, Ohio, inserted such a clause both in its offering the present month and that of last July. The offering of Paulding County, Ohio, in April, and again in August, contained the provision referred to; so did the offering in September of Logan County, Ohio. The village of McConnelsville (Morgan County, Ohio), in inviting proposals last May for $10,000 4 per cent street improvement bonds, went so far as to say that each bidder must satisfy himself as to the legality of the bonds before bidding, *and must so state in his bid.* Mattoon (Ill.) School District No. 1 has also felt it incumbent to include the legality clause, as has Starbuck, Minn. Duluth, Minn., last June invited proposals for half a million bonds, and said that bids were to be unconditional, except that they might be conditioned on the favorable opinion of Messrs. Dillon & Hubbard, or other attorneys of note.

We thus have a good many instances where the requirement under discussion has formed part of the offering. Nevertheless, the experiment has not been tried long enough or wide enough to permit of distinct conclusions as to its working. The attitude of bond houses with reference to it seems to vary. Some ignore it altogether—that is, do not incur the expense of obtaining legal opinion before submitting their bid; those who adopt this course do so confident that, if the bonds are not legal, they cannot be compelled to take them in any event. Other houses adopt a different policy. They feel sure of the soundness of the opinion that an illegal obligation can not be forced upon them, but they know that the municipality having their check, it could only be recovered at the end of a long litigation. This is a risk they do not care to incur. Hence they either do not bid at all, or where the offering is large they combine with other houses and secure an opinion, and divide the expense among them. On the whole the requirement would seem of questionable advantage, and the experiment will be watched with interest.

INDIANA DEBT LIMIT AND GRAVEL ROAD BONDS.

Some of our subscribers have written us asking how we reconcile the statement in our STATE AND CITY SUPPLEMENT saying that Indiana counties and municipalties are limited in their debts to two per cent of the assessed value of the property within their jurisdiction, with the fact that a number of counties apparently report an aggregate indebtedness in excess of that ratio. The provisions of the Indiana Constitution are plain and explicit as to the limitation. Article

13 of that instrument (which article was adopted March 14 1881 as an amendment) declares that "no political or municipal corporation in this State (Indiana) shall ever become indebted, in any manner or for any purpose, to an amount in the aggregate exceeding two per centum on the value of the taxable property within such corporation, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness." There is a proviso giving the authorities power in certain contingencies to incur obligations necessary for the public defense, but it does not apply in this instance.

While this Constitutional mandate exists, however, and manifestly can not be disregarded, there appears to be a special kind of bond which, according to the ruling of the Supreme Court of Indiana—the tribunal of final jurisdiction—does not come within the terms of the prohibition in question, since provision for the payment of the bonds and interest is made in other ways than from the funds of the county. This apparently is the explanation of the fact that aggregate indebtedness in some few of the counties runs above the two per cent limit. In the cases where this seeming anomaly exists, it will be found as a rule there is a considerable amount of so-called gravel road bonds included in the total. Additional gravel road bonds are being authorized all the time even where the existing bond issues of that class, together with the other obligations outstanding, form a total in excess of the two per cent limit. It is obvious therefore that in the opinion of the Legislature and the authorities a different rule applies to these gravel road bonds from that which prevails with regard to other indebtedness. As a matter of fact, the view that these bonds belong in a distinct class has the sanction of the Indiana Supreme Court, as already stated.

The question came up in a case which was decided at the May term of the Court in 1887, and that ruling has ever since been accepted as controlling in other similar cases. The case was that of Strieb vs. Cox, Treasurer, et al. Strieb was a citizen and taxpayer of Grant County, in the Hoosier State, and he attacked the validity of $43,000 bonds issued by the county for the construction of what was known as the Marion and Huntington free gravel road. One of the allegations of the bill of complaint was that at the time of the issue of the bonds (to meet the expense of the improvement) the aggregate indebtedness of Grant County already exceeded two per cent of the taxable property within the county. The Court therefore carefully examined into the question. First it referred to the provision of law under which the bonds were issued. Authority was given under an Act of March 3 1877 as amended by an Act which took effect March 3 1881. This law provided for the construction by boards of county commissioners of gravel, macadamized or paved roads, upon petition of a majority of the resident land owners along the line of the road, and authorized the issue of bonds by the county to raise the money required for the purpose, said bonds to be paid by taxing land adjacent to the road. In view of the importance of the question it seems desirable to quote in full the section of the law relating to bond issues under it just as the Supreme Court did in passing upon it. The section constitutes Section 5097 of the official Revised Statutes of 1881. It is as follows:

SECTION 5097.—For the purpose of raising the money necessary to meet the expense of said improvement, the Commissioners of the County are hereby authorized to issue the bonds of the County, maturing at annual intervals after two years, and not beyond eight years, bearing interest at the rate not to exceed six per cent per annum payable semi-annually; which bonds shall not be sold for less than their par value. Said assessment shall be divided in such manner as to meet the payment of principal and interest of said bonds, and so be placed upon the duplicate for taxation against the lands assessed, and collected in the same manner as other taxes; and when collected, the money arising therefrom shall be applied to no other purpose than the payment of said bonds and interest: *Provided*, That no bonds shall be delivered or money paid to any contractor, except on estimate of work done, as the same progresses or is completed, and said road or improvement shall be kept in repair, as other State and County roads are; *Provided, further*, That the amount of such bonds outstanding at any one time shall not exceed the sum of one hundred thousand dollars principal.

The language of this section deserves to be carefully studied. It will be observed it provides for a species of special assessment bond, payment of which is assessed on the property benefited. The bond thus bears analogy to the district improvement bond authorized outside the debt limit in Illinois in the case of cities and villages subject to overflow. That bond is described in the STATE AND CITY SUPPLEMENT on page 95. In this Illinois instance, however, it will be noted there is the additional provision that the consent of the property owner must be endorsed under seal on the back of the bond, which is then recorded in the Recorder's office in the county and becomes a lien against the property until paid off and discharged—the record to be a notice of the lien the same as real estate mortgages are a notice.

It is not necessary, however, to go into the question of analogy with somewhat similar bonds in other States. The Indiana Supreme Court in the case referred to of Strieb vs. Cox, disposed of the whole question in clear and unambiguous language. The Court reached the conclusion that "the bonds issued by the Board of Commissioners of Grant County, under the provisions of the section quoted, and pursuant to the authority thereby conferred, did not and do not constitute an indebtedness of such county, and did not and do not evidence an indebtedness incurred by such county within the inhibition of Article 13 of our (the Indiana) State Constitution." The Court pointed out that such bonds are not payable by the county or out of the general funds of the county treasury. They are payable out of the particular fund to be raised by the collection of the assessments made on the lands adjacent to such free gravel road, "divided in such manner as to meet the payment of principal and interest of said bonds," and placed as divided upon the tax duplicates against the lands assessed, "and collected in the same manner as other taxes," which fund, when so collected, "shall be applied to no other purpose than the payment of said bonds and interest." No other provision is made by law for the payment of either the bonds or the interest thereon; and the bonds and interest are made payable out of the particular fund to be derived from the collection of the assessments made on the lands adjacent to such free-gravel road, and from no other source, and such fund is pledged by the statute for the payment of said bonds and interest.

From all this the Court thought it was manifest that the Legislature intended that the entire cost and expense of constructing any free gravel, macadamized or paved road, and all the bonds of the county issued for the purpose of raising the money necessary to meet the expense of such improvement, should be borne and paid out of the particular fund to be raised by and from the collection of the assessments made on the lands adjacent to such road. The Court says it is true the law provides that the preliminary expenses of such an improvement may be paid out of the county treasury, but it is also provides that the amount so paid must be refunded out of the particular fund to be raised from the assessments on adjacent lands.

United States Debt and Its History.

The following is a statement of the debt of the United States past and present. To add to its usefulness we give references to the laws authorizing each of the issues of bonds outstanding to-day, and likewise, so far as we deem it needful, citations from those laws.

All our figures, except when otherwise noted, represent the status at the close of business June 30 or the beginning of business on July 1 of each fiscal year. To conform to that feature and yet furnish information through which any reader can always have the data for a correct exhibit of the debt situation at any past or future day, and make an accurate comparison with previous years, we present, FIRST, the details as they stood at the close of the last fiscal year ending June 30 1899; SECOND, the changes in those details since June 30 1899 down to October 1 1899; THIRD, the items of interest-bearing debt, &c., at the beginning of each fiscal year since July 1 1876; FOURTH, we publish in the CHRONICLE every month—usually the first or second Saturday—the full detailed Government statement of the debt as reported by the Treasurer on the last day of the previous month; some months lack of space forces us to delay the publication to a later week.

With these data at his command, it would seem as if any inquirer could satisfy himself fully with reference to every point which might become of importance for him to know respecting the United States debt.

Aggregate June 30 1899 of debt bearing no interest		$389,433,653 66

The foregoing shows that the Government debt on June 30 1899 was made up of (1) interest-bearing debt, $1,046,048,750, of (2) debt on which interest has ceased, $1,218,300 26, of (3) debt bearing no interest, $389,433,653 66, making total *gross* debt $1,436,700,703 92; subtracting from the total the net cash balance in the Treasury ($281,380,468 73) at the same date (June 30 1899) we have the net debt as it stood at the close of the last fiscal year, $1,155,320,235 19. To bring down the *interest-bearing* debt to October 1 1899—which, as stated, was $1,046,048,750 on June 30 1899—we must add to the Funded Loan of 1907 $350 and deduct from the Refunding Certificates $250 (a net addition of $100 to reach the total of the interest-bearing debt October 1 1899, which was $1,046,048,850).

For *later and future details of the debt, see the same* as issued every month in the CHRONICLE, the first or a later Saturday. We now add, *first*, references to and citations from the laws which are the authority for the debt as it stands to-day; *second*, the two tables on the next page, which exhibit all the particulars of the total debt of the United States on June 30 of each year from 1876 to 1899, and on October 1, 1899; *third*, the Pacific Railroad bonds, which are never included in the Treasury debt statements.

"FUNDED LOAN OF 1891" (Column 1) 4½ per cents, continued at 2 per cent. The bonds of this issue still outstanding were issued in exchange for the 4½ per cent funded loan of 1891 by mutual agreement between the Secretary of the Treasury and the holders, and were made redeemable at the pleasure of the Government. Amount issued was $25,364,500 and they are all outstanding to-day.

"FUNDED LOAN OF 1907" (Column 2) 4 per cents. The act of July 14, 1870, authorized the issue of 1,000 million dollars of bonds at 4 per cent, payable in coin of the present standard value, at the pleasure of the United States after thirty years; these bonds to be exempt from all taxes or duties of the United States, as well as from taxation in any form by or under State, municipal or local authority. Bonds to be sold at not less than par in coin, and proceeds to be applied to the redemption of outstanding 5-20s, par for par. Outstanding (October 1 1899), $559,652,650.

"REFUNDING CERTIFICATES" (Column 3).—Act of February 26 1879 authorized the Secretary of the Treasury to issue in exchange for lawful money of the United States certificates of deposit of the denomination of ten dollars, bearing interest at the rate of 4 per cent, and convertible at any time, with accrued interest, into the 4 per cent bonds described in the Refunding act; the money so received to be applied only to the payment of the bonds bearing interest at a rate not less than 5 per cent. On March 12 1879 the issue of these certificates and their exchange into 4 per cent bonds were authorized; the certificates were to draw 4 per cent interest from April 1 1879 and were convertible in sums of $50 or its multiples. The amount issued at the close of the fiscal year (June 30 1879) was $39,308,110, but they had been converted so rapidly that there were outstanding at that date only $12,848,210. On October 31 1879 the entire authorization had been reached, the maximum amount of the issue being $40,012,750. Of these there were still outstanding on October 1 1899 a total of $37,580

"LOAN OF 1904."—(Column 4.) The act of January 14 1875 authorizes the Secretary of the Treasury to use any surplus revenues from time to time in the Treasury not otherwise appropriated, and to issue, sell, dispose of, at not less than par in coin, either of the descriptions of bonds of the United States described in the act of July 14 1870 for the purpose of redeeming on and after January 1 1879 in coin, at the office of the Assistant Treasurer of the United States at New York, the outstanding legal-tender notes when presented in sums of not less than fifty dollars. Under this authorization, and for the purpose mentioned, there were issued in February, 1894, payable in 10 years, $50,000,000 of 5 per cents and in November 1894 there were issued $50,000,000 more for similar bonds for the same purpose. There are now outstanding $100,000,000.

"LOAN OF 1925."—(Column 5.) Sales of bonds included under this designation were effected (1) in February 1895 to the amount of $62,315,400 and (2) in February 1896 to the amount of $100,000,000. In a message to Congress under date of February 8, 1895 (published in the CHRONICLE February 9 1895, page 244), President Cleveland stated that "in pursuance of Section 3700 of the Revised Statues the details of an arrangement have this day been concluded whereby bonds of the United States authorized under the act of July 14 1875, payable in coin *thirty years* after their date, with interest at the rate of 4 per cent per annum, to the amount of a little less than $62,400,000, are to be issued for the purchase of gold coin amounting to a sum slightly in excess of $65,000,000, to be delivered to the Treasury of the United States, which sum added to the gold now held in our reserve will so restore such reserve as to make it amount to something more than $100,000,000. Such a premium is to be allowed to the Government upon the bonds as to fix the rate of interest upon the amount of gold realized at 3¾ per cent per annum. At least one-half of the gold to be obtained is to be supplied from abroad." Section 3700 of the Revised Statutes is as follows:

"Sec 3700. The Secretary of the Treasury may purchase coin with any of the bonds or notes of the United States authorized by law at such rates and upon such terms as he may deem most advantageous to the public interest."

For a construction of the "Refunding Act of 1870" and of the "Resumption Act of 1875," see CHRONICLE, February 18 1893, page 265.

The issue in February 1896 was an ordinary offering, open to all bidders, of $100,000,000 of the same bonds as the foregoing—same in date, same in time of maturity, same in rate of interest and time of interest payments. Consequently both issues are called the "Loan of 1925," of which there are outstanding $162,315,400.

"TEN-TWENTIES OF 1898."—(Column 7.) The bonds included under this head are an issue of $200,000,000 3 per cents. They were authorized by Act of June 13 1898, and are known as the "War loan." The law provided that in allotting said bonds the individual subscriptions of the lowest amount must be first allotted. On the day the Act was signed a Treasury circular was issued (see circular in CHRONICLE of June 18 1898, page 1168,) inviting subscriptions for 32 days, from June 13 to July 14, for the amount of bonds stated, in both coupon and registered form, coupons in denominations of $20, $100, $500 and $1,000, and registered in denominations of same amounts, and also in $5,000 and $10,000, dated August 1 1898, redeemable in coin at the pleasure of the United States after ten years from date of issue, and due and payable August 1 1918. See circular for further details. Subscriptions reached the amount of $1,325,000,000. The total amount issued at this date and the amount now outstanding (October 1 1899) is $198,678,720.

In April, 1895, we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year. It is not necessary to repeat all those figures. We have determined on this occasion to begin our statement with 1876, as that year antedates all of the issues now outstanding, and yet carries the record sufficiently far back to show the nature and extent of the Government securities when the latest refunding operations began. It has the advantage, too, of giving separate and distinct each issue of bonds now outstanding. The statement is subjoined.

NOTE 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, except in the case of October 1, for which the total is of that date, and is exclusive of interest charge on Pacific Railway bonds.

NOTE 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

PACIFIC RAILROAD DEBT.—Two other classes of bonded debt must be referred to which have never been included in the total of Government debt—we mean the Pacific Railroad debt and the Cherokee certificates of indebtedness. To show the situation of these two classes of bonds we have to make compilations of our own, as the Treasury form comes short of indicating the existing situation. First we bring together the details respecting the issues to the Pacific Railroads, giving likewise in the statement the debt already paid and the balance due to the Government.

HISTORY OF DEBT.—For history of Maine State debt up to 1889, see STATE AND CITY SUPPLEMENT of April, 1895, page 9.

The whole State debt matured in June and October, 1889, and all that was not paid was refunded into the following loans, payable by instalments, part each year.

DEBT LIMITATIONS.—Constitutional and statutory limitations restricting municipal indebtedness have become quite a feature since the crisis of 1873. In the States where these limitations are provisions of the Constitution of course debts contracted in excess of such limitation are absolutely void. In Maine the amendment to the Constitution took effect January 2, 1878, and is in the following form and words: "Article XXII. Limitation of Municipal Indebtedness. No city or town "shall create any debt or liability which, singly or in the aggregate, "with previous debts or liabilities, shall exceed five per centum of the "last regular valuation of said city or town; *provided, however*, that "the adoption of this article shall not be construed as applying to any "fund received in trust by the said city or town, nor to any loan for the "purpose of renewing existing loans, or for war, or to temporary loans "to be paid out of money raised by taxation during the year in which "they are made."

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in the State of Maine are contained in Public Laws 1895, Chapter 161, Public Laws 1893, Chapter 170, and Revised Statutes, Chapter 47, Sections 102 and 103.

HISTORY OF DEBT.—New Hampshire's debt history is very brief. This State has always been extremely conservative, and no bonds were issued until after the breaking out of the Civil War. In 1866 New Hampshire reported her funded indebtedness at $4,169,818, contracted exclusively for war purposes. June 1, 1869, the total outstanding was $3,213,962 22, against which the Treasurer reported an asset of $77,082 89. The situation of the State debt now is as b ow:

LOANS NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.
Agricultural College 1893.	4	.....	July 1, 1913	$135,000

Loan of 1873 (overdue)	..	....	.....	500
Trust funds	4&6	....	.....	734,749 45

Of the trust funds held June 1, 1898, $80,000 bear 6 per cent interest and $617,746 36 bear 4 p. c. interest, no interest being paid on $2,096 19.

PAR VALUE OF BONDS.—The bonds of this State are in $500 and $1,000 pieces.

INTEREST is payable at the Commonwealth Bank of Boston and at State Treasurer's office.

TOTAL DEBT.—The *net* debt on June 1, 1899, was $1,335,068 05. The subjoined statement shows New Hampshire's *total* debt on the dates named. Assets June 1, 1899, were $690,953; floating debt, $1,472.

ASSESSED VALUATION.—The State's total assessed valuation (including taxable savings, bank savings and insurance capital) has been as follows:

Years.	Valuation.	Years.	Valuation.

DEBT LIMITATION.—There is no restriction in the Constitution of New Hampshire upon the debt-making power of the people through the "General Court," *except* the following, which is the last clause of Article 5 of Part Second of that instrument.

Provided, That the General Court shall not authorize any town to loan or give its money or credit directly or indirectly for the benefit of any corporation having for its object a dividend of profits or in any way aid the same by taking its stocks or bonds.

The above is an amendment to the Constitution, which was ratified in 1877. The amendment would appear to be intended as a complete estoppel to municipal loaning of money or credit to railroad and industrial corporations. It is to be noticed, however, that by its terms the restriction does not specifically mention "cities," the words being "any town."

In addition to the foregoing is the "Municipal Bond Act of 1895." It tells in the matter of issuing bonds what a municipal corporation may do, what it must do, and what it cannot do. The law enacts: *Sec.* 1. The term "municipal corporation" means town, city, school district, village district and village precinct. *Sec.* 2. Bonds issued must be payable within 20 years, interest semi-annual, not exceeding 6 per cent, may be payable in gold coin. If made payable in less than 20 years, may be extended but never beyond 20 years from time of issue. *Sec.* 3. Bonds (except of cities) must be authorized by a vote of two-thirds of all voters present and voting at an annual meeting of such corporation, or at a special meeting if properly called, &c. (for which see act). Bonds must be signed by a majority of the Governing Board, countersigned by Treasurer and have seal of corporation. Time and place of payment and rate of interest, &c., may be delegated to Governing Board. *Sec.* 4. City bonds must be authorized by resolution of City Council passed by at least two-thirds of members elected to each branch taken by yeas and nays, signed by Mayor, countersigned by Treasurer, seal of city affixed. Place of payment, rate of interest and sale may be delegated to Treasurer. *Sec.* 5. Bonds shall be payable to bearer or to registered holder by name, and must be in form set out in act—which see. In case bond be made subject to call they must contain statement to that effect as given in act. "The validity of any bonds shall not be affected by any variation from the forms herein prescribed." *Sec.* 6. Treasurer to keep a book in which he shall register bonds issued, &c. *Sec.* 7. "All bonds purporting to be issued by virtue of this act and signed and sealed as hereinbefore provided shall in favor of bona fide holders be conclusively presumed to have been duly and regularly authorized and issued in accordance with the provisions herein contained, and no holder thereof shall be obliged to see to the existence of the purpose of the issue or to the regularity of any of the proceedings or to the application of the proceeds. All such bonds shall be negotiable in all respects and to the same extent as securities negotiable by the law merchant." *Sec.* 8. Annual tax must be

levied and collected sufficient to pay interest and provide a sinking fund sufficient to pay principal within 20 years. *Sec.* 9. No bonds can be issued which shall increase the *net* debt of corporation to an amount exceeding 5 per cent of the value of the taxable property therein as last appraised for assessing taxes. To ascertain *net* debt, all debts must be included except the following, which must be deducted—water debt, "cash and other means" in treasury and sinking funds applicable to payment of debt so included; "but nothing contained in this section shall prevent the issue of bonds for the purpose of refunding an equal principal amount of other bonds of such corporation." *Sec.* 10, corporation seal. *Sec.* 11. Act to take effect on passage. Approved March 19, 1895.

POPULATION OF STATE.—Since 1800 the total population has been as follows.

1890	376,530	1860	326,073	1830	269,328
1880	346,991	1850	317,976	1820	244,022
1870	318,300	1840	284,574	1810	214,460

In 1870-80 increase was 28,691, or 9·01 per cent, and in 1880-90, 29,539, or 8·51 per cent. For earlier population figures see STATE AND CITY SUPPLEMENT of April, 1895, page 13.

SAVINGS BANKS' INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The laws in this State relating to savings banks investments were remodeled by the Legislature of 1895. The act referred to was approved on March 29, 1895, and went into effect on July 1 of the same year. It is as follows: [In 1899 certain changes were made in sections 8, 9 and 16, which we have incorporated below.]

AN ACT to regulate the investments of savings banks.

The term "net indebtedness" shall be construed to denote the indebtedness of any city or town, omitting debt created for supplying the inhabitants with water, and deducting the amount of sinking funds available for the payment of municipal indebtedness.

10th. In the bonds of any railroad company incorporated under the authority of any of the New England States whose road is located wholly or in part in the same, and which is in possession of and operating its own road, and has earned and paid regular dividends for the two years next preceding such investment; or in the bonds guaranteed or assumed by such railroad company, of any railroad company so incorporated whose road is thus located; or in the bonds or notes of any railroad company incorporated under the laws of this State; but not exceeding twenty-five per cent of the deposits shall be so invested.

TOTAL DEBT, ETC.—The total debt of the State on July 1, 1899, was $666,237 47. On July 1, 1899, the total resources were $879,248 33, including cash on hand and in banks $133,632 91.

ASSESSED VALUATION.—The State's assessed valuation and tax rate have been as follows:

Years.	Assessed valuation. Real.	Personal.	Total.	Tax rate per $1,000
1899	$117,642,114	$57,969,558	$175,611,672	$2·00
1898	116,141,979	58,621,654	174,763,633	1·50
1897	114,994,441	59,396,708	174,391,149	2·50
1896	113,700,464	60,996,759	174,697,223	1·00

1890	112,895,125	65,157,388	178,052,513	.....

The tax rate for 1899 was $2·00 per $1,000, which includes State school and State highway taxes of 50 cents each per $1,000, collected and re-distributed to towns on a basis of the number of schools and road mileage.

DEBT LIMITATIONS.—There appears to be nothing in the Constitution or in the Statutes of Vermont providing a general limit to the debt-making power of municipalities. Whatever in each case the Legislature authorizes, the city, town, county or other civil division can issue. Of course the purpose of the improvement must be of a public character. Railroad subscriptions by towns are authorized by Section 2760, chapter 132 of the Revised Statutes, the section being as follows:

SECTION 2760. A town may aid in the construction of a railroad organized under the general law by issuing bonds to aid such railroad, by taking capital stock therein, or in such other manner as it directs-but the liability so assumed shall not exceed eight times the grand list of the town at the time. Such aid shall be given in the way provided in this chapter.

It will be noticed that this section contains a limit to the power granted of making subscriptions in aid of railroads—to wit: That the subscriptions shall not exceed eight times "the grand list." To evolve the "grand list" in Vermont, the authorities first prepare a schedule of all the property, real and personal, of each individual, with valuations entered at their real value in money, deducting debts owing; after this is done "the grand list" is made up by taking one per cent of that amount, according to Section 317, Chapter 25, of the Revised Statutes, which is as follows: "All taxable property shall be set in the list at one

"per cent of its value in money on the first day of April of the year "in which the list is made."

Following Section 2760, above cited, which authorizes subscriptions in aid of railroads, are other sections describing the method in which these subscriptions must be made, by calling a town meeting, voting, &c., &c. Then follows Section 2766, authorizing the issue of bonds.

SECTION 2766. Such town may issue bonds, with coupons payable semi-annually, at a rate of interest not exceeding seven per cent, to aid such road.

The only other *general* authority granted for the issue of bonds by municipal corporations in Vermont is that given for refunding outstanding bonds and notes. The Sections which grant this power are Sections 2769, 2775 and 2776, Chapter 132 of the Revised Statutes, Sections 2769 and 2776 are as follows:

SECTION 2769. A town which has outstanding and unpaid negotiable notes or bonds, issued to pay for stock subscribed to a railroad company, under any act of the general assembly, may issue other negotiable notes or bonds to pay or retire such outstanding notes or bonds.

SECTION 2,775. A town having outstanding and unpaid orders, notes bonds or coupons, issued under any act of the Legislature, for the purpose of the erection of public buildings, or in aid of public improvements, or for the payment of soldiers' bounties, may issue other negotiable notes or bonds for the purpose of retiring the outstanding orders, notes, bonds and coupons, in the same manner that it may issue new notes or bonds to pay or retire outstanding notes or bonds issued in aid of a railroad; and the powers, restrictions, duties and liabilities of the town and town officers in the matter shall be the same as is provided by law in the case of the refunding by a town of town bonds issued in aid of a railroad; and the interest on such new notes or bonds shall be provided for in the same manner.

By Section 2776 municipal corporations other than towns have the same refunding powers granted them which are conferred upon towns by the two sections last above cited.

The only other section which we need quote is Section 2751 of Chapter 130, which names the objects for which towns may vote money. If money is appropriated for any other object, the Charter or a special statute must be looked to for the authority.

SECTION 2751.—Towns in town meetings may vote such sums of money as they judge necessary for the support of the poor; for laying out and repairing highways; for the prosecution and defense of the common rights and interests of the inhabitants, and for other necessary incidental town expenses.

POPULATION OF STATE.—According to the first census (1790) the population of Vermont was 85,425, of which 44,756 were males, 40,398 were females and 271 free colored. The total in 1800 was 154,465. Since that date each ten year aggregate is given below.

1890 332,422	1860 315,098	1830 280,652
1880 332,286	1850 314,120	1820 235,966
1870 330,551	1840 291,948	1810 217,895

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—The provisions of law relating to savings banks are found in Chapter 174 of the Vermont statutes, Sections 4066 to 4131 inclusive, as amended from time to time. The first section having reference to investments is Section 4096, which treats of *real estate mortgages*. It authorizes the investment of 70 p.c. of the assets in such mortgages, one-sixth at least of which "shall be upon real estate in this State"—that is Vermont. A proviso adds that only 50 per cent of the assets may be invested in mortgages on real estate outside of Vermont. Sections 4097 and 4098 relate only to obtaining and paying for insurance. Section 4099 is as follows, and has reference to investment on *personal security*.

SECTION 4099—No loans or investments on personal security shall be made except upon at least two approved names, not less than two of whom reside in this State or within fifty miles of the institution making such investment, and such personal loans or investments shall not be for a longer time than one year; and not more than one-third of the assets of a savings bank, savings institution or trust company shall be invested in personal securities.

Section 4100 only covers a single point; that is to say it restricts to *five* per cent of the deposits the amount which a savings bank may invest in the lot and building for the transaction of its business, and adds that a revenue may be derived from portions of the building not required for the bank's use. The next section (Section 4101) covers the most important of the provisions relating to investments that are contained in the law. We give the section in full below. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own.

SECTION 4101—With the foregoing exceptions, the moneys deposited in Savings' Banks, Savings' Institutions and Trust Companies, and the income therefrom, shall be invested only as follows:

(1.) In the public funds of the United States, or public funds for the payment of principal and interest of which the faith of the United States is pledged;

(2.) In the bonds or notes of the counties, cities, towns, villages and school districts of the New England States, New York, Pennsylvania, Ohio, Michigan, Indiana, Illinois and Iowa;

(3.) In the stock of any national bank in the New England States, New York and the cities of Detroit, Chicago, St. Paul and Minneapolis; in the stock of any banking association or trust company incorporated under the authority of and located in this State;

(4.) In the municipal bonds, not issued in aid of railroads, of counties, cities and towns of five thousand or more inhabitants in the States of New Jersey, Wisconsin, Minnesota and Missouri, and in counties, cities and towns of ten thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, but no investment shall be made in any of the counties, cities or towns in the States above named, except in cities of fifty thousand or more inhabitants, where the municipal indebtedness of such county, city or town *exceeds five per cent* of its assessed valuation, and when not issued in aid of railroads;

(5.) In the school bonds and independent school district bonds of New Jersey, Wisconsin, Minnesota and Missouri; and in the school bonds and independent school district bonds of school districts of two thousand or more inhabitants in the States of Kansas, Nebraska, North Dakota, South Dakota, Oregon and Washington, where the amount of such bonds issued does not exceed five per cent of the assessed valuation of the respective cities, towns and school districts.

(6.) In the public funds of any of the States named in this section; in notes with a pledge of any of the aforesaid securities, including deposit books or deposit receipts, issued by a savings bank, savings institution or trust company or banking association located in this State, as collateral, such notes not to exceed the par or market value of such security;

(7.) But no savings bank, savings institution or trust company shall hold, by way of investment or as security for loans, more than ten per cent of the capital stock of any one bank, nor invest more than ten per cent of its deposits, nor more than thirty-five thousand dollars in the capital stock of any one bank; and no such investments shall be made in the capital stock of any such banks, owned or loaned upon, to exceed in the aggregate one-fourth of the deposits of any savings bank, savings institution or trust company.

The amount of loan which can be made to one person or corporation, &c., is restricted by the next section, and we give it in full. It is as follows:

SECTION 4102—No savings bank, savings institution or trust company shall loan to any one person, firm or corporation, or the individual members thereof, more than five per cent of its deposits, nor more than thirty thousand dollars; nor shall such loan on personal security exceed ten thousand dollars.

We also give Section 4106 in full. It confers authority upon savings banks to make deposits on call in banks and trust companies in certain States and cities, and is as follows.

SECTION 4106.—The words "trust company" in this chapter shall be construed to include savings banks and trust companies. A savings bank, savings institution or trust company may deposit on call in banks, banking associations or trust companies in this State, or in the cities of New York, Boston or Chicago, or in national banks in the cities of St. Paul, Minneapolis and Kansas City, with or without interest, as may be agreed upon, sums not exceeding in the aggregate twenty per cent of the assets of such savings bank, savings institution or trust company.

Section 4107 enacts that savings banks may hold real estate acquired on foreclosure or otherwise taken to secure debt, but it must be sold within five years, &c. Section 4108 authorizes savings banks to demand and receive on loans 6 per cent interest.

* Includes, beginning with 1894, sundry small items not previously counted.

POPULATION OF STATE.—Massachusetts has the largest population of any of the New England States. In 1790 numbers were 378,787 and in 1800 422,845; in the next fifty years the increase was to 994,514, and the 1890 Census showed a total of 2,238,943.

1880	1,783,085	1840	737,699		

DEBT LIMITATIONS.—There seems to be no provision in the Constitution of Massachusetts limiting the power of the Legislature to create State indebtedness, or limiting its power to authorize municipal indebtedness. Statutes general and special have, however, been passed on this subject with respect to Cities and Towns.

First among these Statutes needing mention we have Chapter 29 of the Revised or "Public Statutes." The important sections to be cited contained in Chapter 29 are as follows. We give only the substance of the sections, not the words.

SECTION 1—Provides that cities and towns shall not incur debt except in the manner and within the limitations prescribed in this chapter.

SECTION 2—Provides (as a preliminary for determining whether the limitation fixed by Section 4 has been reached by any municipality) that the water debt and the sinking funds shall be deducted from the total debt.

SECTION 3—Provides that the first 17 sections of chapter 29 shall not apply to debts incurred in aid of railroads, to water scrip issued under special statutes, or to indebtedness for a fire district.

SECTION 4—Provides that no city or town except as provided in the following section shall become indebted in an amount *which exceeds 3 per cent on the last preceding valuation* [but amended as noted below.]

SECTION 5—Provides that cities and towns which were indebted on the 13th day of June, 1875, to an amount not less than 2 per cent on valuation for that year may "increase such indebtedness to the extent "of an additional one per cent on that valuation and no more."

SECTION 6—Provides that cities, &c., "may by *ordinary vote* incur debts for tempory loans" in anticipation of the year's taxes and of the year's taxes next ensuing.

SECTION 7—Provides that other debts than those referred to in section 6 shall be incurred only by a vote of two-thirds of the voters present at a town meeting, of two-thirds of all the members of each branch of the city council, and approved by the Mayor; or if the Mayor disapproves, by another like vote after notice of such disapproval.

SECTION 8—Provides that debts incurred for water must be payable within 30 years; in constructing sewers within 20 years; all other debts within 10 years.

SECTIONS 9 to 17 inclusive, contain interesting provisions relating to sinking funds and other allied matters.

SECTION 18—Provides that any city which at a meeting of its voters has accepted by a two-thirds vote any act to supply said city with water, may by a vote of a majority of the members of each branch of the city council contract debts and issue bonds for the purpose.

SECTION 19—Provides that towns, &c., shall not increase their debt by subscriptions in aid of railroads beyond 3 per cent of valuation; *but the limitation* of this section shall not apply to temporary loans mentioned in Section 6.

SECTIONS 20 to 23, which are the final ones of Chapter 29, have no reference to the subject we are discussing and need not be cited.

As the reader has seen, the foregoing (Section 4, Chapter 29) fixes the *general* debt limitation for cities and towns *at 3 per cent.*

This general limitation was lowered by a later law. The provision is found in Chapter 312, Section 2 of the "Public Statutes," which provision reduces the general debt limitation from 3 per cent to $2\frac{1}{2}$ *per cent* on the average valuation for the preceding three years. Worcester, Lynn, Gloucester and Brockton are in the same Section exempted from the operation of the Section until January 1, 1889—later than 1889 the only exemptions we find in the Statutes are special in their purpose, not general.

The temporary loans provision, as it appears above in Section 6 (Chapter 29), is also changed by Section 4, Chapter 312, by omitting "and of the year next ensuing;" so that at present cities and towns by *ordinary vote* can incur debts for temporary loans in anticipation of the taxes of the year *only* in which such debts are incurred.

Temporary loans (for a term not exceeding one year) in anticipation of money to be derived from an issue of bonds or other form of indebtedness, duly authorized, are provided for by a statute approved June 14, 1898. The same Act states that the time within which said bonds, etc., shall become due shall not be extended by reason of said temporary loan.

The foregoing statements cover all the material facts general in their application passed with respect to debt limitation. In addition to these General Provisions there are various Special Laws which contain *exceptions* to the general law as to debt limitation, which apply to Boston, Cambridge, Lynn, Newburyport, Waltham, Worcester, &c., &c.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks and institutions for savings in Massachusetts are contained in Section 21, Chapter 317, acts of 1894, and amendments thereof. All the provisions have been compiled by the Commissioners of Savings Banks, and we cannot do better than to give their compilation, which we do below in full. In 1899 the authority to purchase railroad bonds was materially broadened. The amendment is included in the provisions below.

Massachusetts savings bank deposits and the income derived therefrom shall be invested only in manner following, to-wit:

When the first mortgage indebtedness to the amount of three hundred and fifty thousand dollars, now existing upon that portion of the railroad of the Boston Revere Beach & Lynn Railroad Company lying between Boston and Lynn in this Commonwealth, and maturing on the fifteenth day of July in the year eighteen hundred and ninety-seven, shall have been discharged, savings banks and institutions for savings in this Commonwealth may invest their deposits and the income derived therefrom, in the bonds of said company issued according to law, notwithstanding the existence of the present mortgage indebtedness, not matured, upon that part of its railroad, franchise and property, formerly belonging to the Boston Winthrop & Shore Railroad Company.

DEBT LIMITATIONS.—The general provision as to debt limitation which applies only to Boston is found in the Supplement to the Public Statutes of Massachusetts, Laws of 1885, Chapter 178. The act is entitled "An act to limit the municipal debt of, and the rate of "taxation in, the city of Boston."

Section 1—Provides that the taxes exclusive of State tax and of sums required by law to be raised on account of the city debt shall not exceed in any one year $9 on every $1,000 of the average of the assessors' valuation for the preceding five years, the valuation year to year being first reduced by all abatements.

Section 2—Provides that the limit of indebtedness of the city of Boston shall hereafter be 2½ per cent until January 1, 1887, and thereafter shall be 2 per cent on the average valuation prescribed in section 1 of this act.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures, authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

1880	276,531	1840	108,830	1800	69,12

MUNICIPAL INDEBTEDNESS LIMITATIONS.—There is nothing in the Constitution of Rhode Island limiting the amount of city debts. The following, however, are two sections taken from Title 7, Chapter 36 (page 157) of the Revised Statutes of the State of 1896. Since 1878 these provisions have been in force, and consequently 3 per cent of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 20. "The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted, and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority therefor.

SECTION 21. No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight, but the giving of a new note or bond, for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

A proposed new constitution, containing certain limitations as to State and other debts, failed of adoption at the November election in 1898, was again submitted to popular vote in 1899 and again defeated

SAVINGS BANK INVESTMENTS AND RESTRICTIONS.—In the Revised Statutes of Rhode Island (which were revised in 1896), Sections 54, 55, 56, etc., of Chapter 178, Title 19 (on page 548), will be found the provisions of law with reference to Savings Bank Investments. Section 54, which recites in detail the stocks, bonds, etc., these institutions are allowed to put their money in is as follows:

SECTION 54. Institutions for savings shall invest their receipts—
(1) In public stocks or bonds of any State or of the United States,
(2) Or in any bank stock, or in notes or bonds of any town or city,
(3) Or in notes of any school district or fire district in any New England State.
(4) Or in such corporate stocks or bonds as they may deem safe and secure,
(5) Or they may discount notes, bonds or drafts of individuals or corporations, with two other responsible endorsers, sureties or guarantors,
(6) Or the notes, bonds or drafts of individuals or corporations secured by the public notes, stocks or bonds of any State of the United States, or of any town or city or of any school district or fire district in any New England State, or by the stock or bonds of any corporation which may be deemed to be safe, or by mortgage on real estate.

Concerning Sections 55 and 56, the first appears to give savings institutions quite extensive powers as to making and keeping deposits in commercial banks. When so kept, however, they are to be kept "payable on demand whether drawing interest or not." The two sections are subjoined.

SECTION 55.—No such institution shall have an amount exceeding one-half of its receipts invested in notes, bonds or drafts of individuals or corporations, unless secured by some public notes, bonds or stocks as aforesaid, or by mortgage on real estate; but the preceding section shall not be so construed as to forbid any such institution from placing and holding on deposit in any bank such reasonable amount of their receipts as is customary and they may deem proper, payable on demand, whether drawing interest or not.

SECTION 56.—No money shall be loaned by any institution for savings to any trustee, director or other officer of such institution.

For the other provisions of the law as they now are we would refer our readers to the Revised Statutes of 1896.

DEBT LIMITATION.—The Constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No County, City, Town, Borough or other Municipality, shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any Town or City to protect by additional appropiations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality. There are no general restrictions in the Revised Statutes; whatever restrictions have been made from time to time are contained in enabling acts and in city charters.

As to towns, we notice that there is a general law granting them unlimited power to issue bonds. According to section 140, chapter 23 of the Revised Statutes, "when any town shall have made appropriations "or incurred debts, or shall hereafter make appropriations or incur "debts exceeding ten thousand dollars, it may issue bonds, either regis- "tered or with coupons attached, or other obligations, payable at such "times and at such annual rate of interest not exceeding 6 per cent, "payable annually or semi-annually, as it shall determine," &c. Cities have had no such general authority conferred upon them.

Exemption from Taxation nas been accorded by general statute to certain bonds issued by cities and towns to aid in the construction of railroads; and this exemption has been extended to new bonds issued for the purpose of redeeming or providing a fund to redeem the railroad aid bonds above referred to. This exemption is found in Section 3,820, Chapter 241 of the Revised Statutes (last clause of Section), and the bonds there named are those "issued by any town or city in aid of the "construction of the railroads of the Connecticut Western Railroad "Company, the New Haven Middletown & Willimantic Railroad Com- "pany, the Shepaug Valley Railroad Company, the Connecticut Valley "Railroad Co., the Connecticut Central Railroad Company, or either of "them." All railroads which are in whole or in part in the State are taxed by the State under Section 3920, Chapter 244 of the Revised Statutes, so that the tax on these bonds is paid by the railroads.

Exemption from tax of new bonds issued to redeem or to provide a fund to redeem the railroad aid bonds, or to redeem or to provide a fund to redeem any reissue of the same, is conferred fully by an act approved June 19, 1889, and found in the "Public Acts" for that year.

POPULATION OF STATE.—Population has been as follows:

1890	746,258	1860	460,147	1830	297,675
1880	622,700	1850	370,792	1820	275,148

SAVINGS BANKS INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—At the session in 1899 material changes were made in the provisions regulating the investment of the deposits of the savings banks of Connecticut. We give below the law as thus amended. The Act of 1899 is entitled "An Act concerning Investments of Savings Banks", and is as follows. The separation into paragraphs and the figures in brackets which number and begin the paragraphs we have inserted so that those who need to refer to or use any particular portion of the section can more readily find the part desired; otherwise we give the section as it reads and was passed.

Section 1800 of the General Statutes, as amended by chapter CCXXIX of the Public Acts of 1893 and by chapter CCXVII of the Public Acts of 1897 is hereby amended to read as follows: Savings banks may invest—

(1) Not exceeding twenty per centum of their deposits and surplus in notes secured by the pledge of stocks or bonds as collateral security: *provided*, said stocks or bonds shall have paid dividends or interest of not less than three per centum per annum during the two years next preceding that in which the respective loan is made; or by the pledge of any stocks, bonds, or other obligations which, under the provisions of this act, can be purchased by savings banks; and may invest not exceeding twenty per centum of their deposits and surplus in notes, each of which shall be the joint and several obligation of two or more parties, all residents of this State.

(2) And may invest in the bonds of the United States, the District of Columbia, any of the New England States, or any of the States of New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio, Kentucky, Michigan, Indiana, Illinois, Iowa, Wisconsin, Minnesota, Missouri, Nebraska, Kansas, California, Colorado, and Oregon;

(3) In the bonds of any city in the New England States, or in the State of New York; of Newark, Paterson and Trenton in the State of New Jersey; of Philadelphia in the State of Pennsylvania; of Cincinnati, Cleveland, Columbus, Dayton, and Toledo in the State of Ohio; of Louisville in the State of Kentucky; of Detroit in the State of Michigan; of Chicago in the State of Illinois; of Milwaukee in the State of Wisconsin; of St. Louis in the State of Missouri; of Omaha in the State of Nebraska;

(4) Or in the obligations of any of the counties, towns, cities, boroughs, and school districts in this State,

(5) Or in the capital stock of any bank or trust company located in this State, or in the city of New York in the State of New York, or in Boston in the State of Massachusetts;

(6) Or in the bonds of any other incorporated city located in any of the States mentioned in this act, having not less than twenty thousand inhabitants, as ascertained by the United States or State census, or any municipal census taken by authority of the State next preceding such investment; *provided*, the amount of the bonds of said city, including the issue in which such investment is made and its proportion (based on the valuations contained in the assessment for taxation next preceding such investment) of the county and town debt, after deducting the amount of its water debt, and the negotiable securities in the sinking funds which are available for payment of its bonds, does not exceed seven per centum of the valuation of property in said city as assessed for taxation next preceding such investment; *provided, always*, that the State or city issuing said bonds has not defaulted payment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank; but this act shall not be held to authorize the investment of any funds in any "special assessment bonds" or "improvement bonds", so called, which are not direct and primary obligations of the city issuing the same;

(7) Or in the bonds of any railroad company organized under the laws of any of the States mentioned in this Act, and which bonds are secured by a first mortgage (as the only mortgage security) given by said railroad company upon some portion of the railroad owned by it, or given by a railroad company (a majority of the capital stock in which is owned by the railroad company issuing said bonds), upon some portion of the railroad owned by it but leased or operated by the railroad company issuing said bonds, and which portion of said railroad in either case shall be located wholly or in part in one or more of the States mentioned in this Act, provided the entire railroad of said company is located wholly within the United States; or in the consolidated bonds of any railroad company incorporated by this State and authorized to issue such bonds to retire the entire funded debt of said company; *provided*, that in every case the railroad company in the bonds of which an investment is made shall have paid each year, for a period of not less than five years next previous to such investment, in addition to the interest on its funded indebtedness, dividends of not less than four per centum per annum upon its entire capital stock outstanding; and *provided, further*, that said outstanding capital stock at the time of such investment equals or exceeds in amount one-third of the entire outstanding issue of said bonds; also in the bonds of the following-named railroad corporations, viz:

Boston & Albany Railroad Company,
Boston & Lowell Railroad Company,
Boston & Maine Railroad Company,
Concord & Montreal Railroad Company,
Fitchburg Railroad Company,
Harlem River & Port Chester Railroad Company,
Maine Central Railroad Company,
New England Railroad Company,
New York & New England Railroad Company,
New York, New Haven & Hartford Railroad Company,
Old Colony Railroad Company,

and in any general or consolidated mortgage bonds issued by any of the following-named railroad corporations to retire all of the outstanding prior mortgage bonds secured upon the property covered by said general or consolidated mortgage:

Chicago & North Western Railway Company,
Chicago, Burlington & Quincy Railroad Company,
Chicago, Milwaukee & St. Paul Railway Company,
Chicago, Rock Island & Pacific Railway Company,

Chicago & Alton Railroad Company,
Cleveland & Pittsburg Railroad Company,
Lake Shore & Michigan Southern Railway Company,
Michigan Central Railroad Company,
Morris & Essex Railroad Company,
New York Central & Hudson River Railroad Company,
Pennsylvania Railroad Company,
St. Paul, Minneapolis & Manitoba Railway Company,
Eastern Railway of Minnesota, Northern Division,

and in the mortgage bonds hitherto issued which the said consolidated or general mortgage bonds are to retire at maturity; *provided*, that at no time within five years next preceding the date of such investment shall such railroad corporation have failed regularly and punctually to pay the principal at maturity, (or as extended,) and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding five years; further, that at the date of every such dividend the outstanding capital stock of such railroad corporation shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bond in which such investment shall be made, but this Act shall not be held to authorize any investment in the bonds of any corporation operating its railroad exclusively by any means other than steam as a motive power, or in the bonds of any street railroad company.

(8) All other investments shall consist of deposits in incorporated banks or trust companies located in this State or in the States of New York, Massachusetts, or Rhode Island.

(9) Or of loans secured by mortgage on unincumbered real estate situated in this State, worth double the amount of the loan secured thereon, provided that any savings bank in the towns of Putnam, Brooklyn and Killingly may loan on land located in the County of Providence in the State of Rhode Island; any savings bank in the town of Ridgefield may loan on land located in the County of Westchester in the State of New York; any savings bank in the town of Enfield or in the town of Stafford may loan on land located in the County of Hampden in the State of Massachusetts; and any savings bank in the town of Stonington may loan on land located in the County of Washington in the State of Rhode Island.

It would seem according to the foregoing amendment of section 1800 that only forty per cent of the deposits and surplus of any savings bank may be employed on personal security, but that no limit is placed upon the amount which may be invested in the other securities mentioned in the section.

The subjoined sections, 1803, 1804, 1805 and 1806, provide certain *restrictions* with reference to loans—section 1803 restricting loans on Mortgage Security to Manufacturing Corporations and Ecclesiastical Societies; section 1804 restricting amount of loans to one party on personal security; section 1805 forbidding loans on single names.

SEC. 1803. No loan shall be made by any savings bank to any corporation or association or ecclesiastical society, secured by mortgage upon their property, unless the same shall be accompanied by the individual guarantee of some responsible party or parties, or by other collateral security of equal value to the amount of the sum loaned, and the directors or trustees of any such bank consenting to any loan contrary to the provisions of this section shall be held individually responsible to the full extent of such loan.

SEC. 1804. No savings bank having more than twenty-five thousand dollars deposits shall loan on personal security to any one person, company, or interest, more than three per cent of its deposits at the time of making such loan.

SEC. 1805. No savings bank shall buy, or lend any money upon, any obligation on which only one person or firm shall be holden, without taking additional security for the same equivalent to the guaranty or indorsement of some other responsible party.

Besides the ordinary safeguards which are in all savings bank laws there is one of no little importance that ought to aid materially in preventing incautious loans. We refer to the provision below.

SEC. 1806.—When any loan or investment is made by any savings bank, the names of the directors or trustees consenting thereto shall be entered upon the records of said bank, and said record shall be at all times open to the inspection of the corporators and auditors of said bank and the Bank Commissioners, and be *prima facie* evidence of the truth of the statements therein contained.

TRUST FUNDS—HOW LOANED OR INVESTED—We find in Section 495 of the General Statutes the following liberal provisions providing that trust funds may be loaned or invested in the same securities savings banks are authorized to invest in.

SEC. 495.—Trust funds, unless it is otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State, double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city, or borough of this State, or in any bonds, stocks, or other securities which the savings banks in this State are or may be authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT

NOTE.—*For debts of minor civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.*

The relation which the towns, cities and boroughs of this State bear to one another is peculiar, and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 167. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List of each town") is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. There are ten cities, each with one exception bearing the same name as the town in which it lies. Of late several towns and cities whose limits were about identical have been consolidated and the outstanding bonds of both town and city are reported together without distinction. This is the case with the city and town of Hartford, which previous to April, 1896, reported their debts separately. The city and town of New London have been consolidated and also Bridgeport city and town. On December 7, 1897, city, town and school district of New Haven were likewise consolidated.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for though distinct corporations, their debts are to a greater or less extent the debts of a single community.

HISTORY OF DEBT.—The historical details of New York's State debt from 1817 to 1894 will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

At the November election in 1895 the proposition to issue bonds of the State to the amount of $9,000,000, for the purpose of enlarging and improving the Erie Canal, the Champlain Canal, and the Oswego Canal, was submitted to the voters and carried. These bonds have all been issued to date, but $500,000 have been paid off from the proceeds of the tax levied for a sinking fund, leaving outstanding Sept. 1, 1899, $8,500,660, which, with the $385,000 Comptroller's Certificates and $400,000 Adirondack Park Bonds and $900,000 Defense Bonds, a total of $10,185,660, constituted the State's indebtedness on Sept. 1, 1899.

DEBT LIMITATION—STATE.—The new Constitution has in some measure modified the provisions of the fundamental law restricting the power of the Legislature over the issue of debt, &c These provisions are found in Article 7. We give the sections of that article (Article 7) below which have reference to the subject.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual association or corporation.

State debts, power to contract.—SEC. 2. The State may, to meet casual deficits or failures in revenues, or for expenses not provided for, contract debts; but such debts, direct or contingent, singly or in the aggregate, shall not at any time exceed one million of dollars; and the moneys arising from the loans creating such debts shall be applied to the purpose for which they were obtained, or to repay the debt so contracted, and to no other purpose whatever.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of legislative power to create debts.—SEC. 4. Except the debts specified in sections two and three of this article, no debts shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by a law, for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax to pay, and sufficient to pay, the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within eighteen years from the time of the contracting thereof. No such law shall take effect until it shall, at a general election, have been submitted to the people, and have received a majority of all the votes cast for and against it at such election. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law; but the tax imposed by such act, in proportion to the debt and liability which may have been contracted, in pursuance of such law, shall remain in force and be irrepealable, and be annually collected, until the proceeds thereof shall have made the provision hereinbefore specified to pay and discharge the interest and principal of such debt and liability. The money arising from any loan or stock creating such debt or liability, shall be applied to the work or object specified in the act authorizing such debt or liability, or for the repayment of such debt or liability and for no other purpose whatever. No such law shall be submitted to be voted on, within three months after its passage, or at any general election when any other law, or any bill, or any amendment to the Constitution, shall be submitted to be voted for or against.

Sinking Fund, how kept and invested.—SEC. 5. The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.

DEBT LIMITATION.—CITIES, COUNTIES, TOWNS AND VILLAGES.—The new Constitution of New York State puts a general and uniform limit to the power of all counties and cities of the State to contract and put out their obligations, leaving to the Legislature to fix the debt making power of villages and towns only. These provisions are found in Article 8, Section 10. We give that section in full. The separation into paragraphs and the figures in parenthesis which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to or use any particular portion can the more readily find the part desired. With that exception we give Section 10 of Article 8 as it reads, preserving even the punctuation.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law.

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing

indebtedness, shall exceed ten per centum of the assessed valuation of the real estate of such county or city subject to taxation, as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds ten per centum of the assessed valuation of its real estate subject to taxation, shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness of revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the terms of the bonds issued to provide the supply of water shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted.

(7) Whenever hereafter the boundaries of any city shall become the same those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. [At the November 1899 election an amendment is to be voted upon which would change this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.]

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over one hundred thousand inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year two per centum of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in incurring "any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only Counties and Cities.

According to Paragraph (6) it seems that "any debt hereafter incurred by any portion or part of a city, if there shall be any such debt shall be included in ascertaining the power of the city to become other wise indebted."

We would also call special attention to Paragraph (7), that whenever hereafter the boundaries of any city shall become the same as those of a county "*the power of the county to become indebted shall cease*, but the debt of the county at that time existing shall not be included as a part of the city debt." [This clause, as stated above, is to be amended.]

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the Constitution limiting the creation of debt to 10 per cent of the assessed valuation of the real estate.

Towns and Villages are not limited in their debt-making power by the Constitution. Those municipalities will be governed by general or special statutes.

The 1895 Legislature passed an act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the CHRONICLE of June 8, 1895. V. 60, p. 1023.

EXEMPTION FROM TAXATION.—There is one general New York statute with reference to exemption from taxation "for town, county, municipal or State purposes" of a class of bonds "issued by any village, city, town or county" in the State, which seems to have a wider application than is generally known. As originally passed in 1881 the exemption applied only to bonds issued to pay up or retire bonds "created to aid in the construction of any railroad." A new law was passed in 1886 (Chapter 316) making the tax exemption apply to "new bonds" issued under the act to retire any of the then "*present* bonded indebtedness of any village, city, town or county in this State." With reference to such new bonds the third section of the act of 1886 says: "All new bonds issued by any village, city, town or county in this State under the provisions of this act *shall be exempt* from taxation for town, county, municipal or State purposes until the period when they are made payable." In 1893 still another law was passed making the statute cover any bonded indebtedness. The law as it now stands will be found in editorial on page 4 of the April, 1894, SUPPLEMENT.

In addition to the foregoing there are special laws authorizing special issues that are exempt, but which we have not room to quote here. For New York City there is a general statute which directs how any of its bonds may be made exempt from city and county taxation. That statute is subjoined.

SEC. 137. The Commissioners of the "Sinking Fund of the City of New York for the redemption of the city debt," when duly authorized by ordinance of the Common Council, may, by concurrent resolution, direct that the bonds and stocks of said city, issued pursuant to law, after June ninth, eighteen hundred and eighty, shall be exempt from taxation by said city and by the county of New York, but not from taxation for State purposes; and all bonds and stocks issued pursuant to such authority shall be exempt from taxation accordingly, provided that said bonds and stocks shall not bear interest exceeding the rate of four and one-half per centum per annum. The bonds and stocks of the city of New York issued pursuant to the provisions of this section shall express upon their face the fact that they are exempt from taxation by the city and county of New York, but not from State taxation, and shall refer to this section, and to the ordinance of the Common Council, and the resolution of the Commissioners of the Sinking Fund authorizing their issue.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—In 1898 the New York Legislature passed an amendment to paragraph 6, Sec. 116, of the Savings Bank law of 1892. The amendment extended investments of savings banks to first mortgage railroad bonds the principal part of whose railroad is located within this State, and in 1899 the field of railroad investments was still further enlarged.

We give section 116 below as it stands with these amendments incorporated.

SEC. 116. *In what securities deposits may be invested.*—The trustees of any savings banks may invest the moneys deposited therein and the income derived therefrom only as follows:

1. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia.

2. In the stocks or bonds or interest-bearing obligations of this State, issued pursuant to the authority of any law of the State.

3. In the stocks or bonds or interest-bearing obligations of any State of the United States which has not within ten years previous to making such investment by such corporation defaulted in the payment of any part of either principal or interest of any debt authorized by the legislature of any such State to be contracted; and in the bonds or interest-bearing obligations of any State of the United States, issued in pursuance of the authority of the legislature of such State, which have, prior to the passage of this act, been issued for the funding or settlement of any previous obligation of such State theretofore in default, and on which said funding or settlement obligation there has been no default in the payment of either principal or interest since the issuance of such funded or settlement obligation, and provided the interest on such funded or settlement obligations has been paid regularly for a period of not less than ten years next preceding such investment.

4. In the stocks or bonds of any city, county, town or village, school district bonds and union free school district bonds issued for school purposes, or in the interest-bearing obligations of any city or county of this State, issued pursuant to the authority of any law of the State for the payment of which the faith and credit of the municipality issuing them are pledged.

5. In the stocks or bonds of the following cities: Boston, Worcester, Cambridge, Lowell, Fall River, Springfield and Holyoke, in the State of Massachusetts; St. Louis, in the State of Missouri; Cleveland, Cincinnati and Toledo, in the State of Ohio; Detroit and Grand Rapids, in the State of Michigan; Providence, in the State of Rhode Island; New Haven and Hartford, in the State of Connecticut; Portland, in the State of Maine; Philadelphia, Pittsburg, Alleghany, Reading and Scranton, in the State of Pennsylvania; Minneapolis and St. Paul, in the State of Minnesota; Des Moines, in the State of Iowa; Milwaukee, in the State of Wisconsin; Louisville, in the State of Kentucky; Paterson, Trenton, Newark and Camden, in the State of New Jersey; Baltimore, in the State of Maryland. If at any time the indebtedness of any of said cities, less its water debt and sinking fund, shall exceed seven per centum of its valuation for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to seven per centum of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks, but the superintendent of the banking department may, in his discretion, require any savings bank to sell such bonds or stocks of said city, as may have been purchased prior to said increase of debt.

6. In bonds and mortgages on unincumbered real property situated in this State, worth at least twice the amount loaned thereon. Not more than sixty-five per centum of the whole amount of deposits shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than forty per centum of its actual value. No investment in any bond and mortgage shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their best judgment, and such report shall be filed and preserved among the records of the corporation. Also in the first mortgage bonds of any railroad corporation of this State, the principal part of whose railroad is located within this State; or of any railroad corporation of this and any other State or States connecting with and controlled and operated as part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively; provided that at no time within five years next preceding the date of any such investment shall such railroad corporation of this State or such connecting railroad corporations respectively have failed regularly and punctually to pay the principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid dividends upon all its outstanding capital stock during the preceding five years, at the rate of not less than four per centum per annum; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company respectively shall have been equal to at least one half of the total mortgage indebtedness of such railroad corporations respectively, including all bonds issued or to be issued under any mortgage securing any bond in which such investment shall be made. Also in the mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR Co., Michigan Central RR. Co, Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Canal Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR Co. Provided that at the time of making such investment the said railroads shall have earned and paid regular dividends of not less than four per centum per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any of said railroad corporations shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds hereby authorized for investments shall be secured by a first mortgage of the whole or a part of the railroad and railroad property actually in the possession of and operated by such company; also in the first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one third of the par value of all its bonded indebtedness; and provided also that such railroad be of standard gauge of four feet eight and one-half inches. Not more than twenty per centum of the whole amount of deposits of any bank shall be loaned or invested in railroad bonds, and not more than five per centum of the deposits of any bank shall be invested in the bonds of any one railroad. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

[Under date of June 10, 1899, F. D. Kilburn, Superintendent of the State Banking Department, issued a circular naming the bonds in which savings banks may invest under the amendment of 1899. For list of such bonds see CHRONICLE, V. 68, p. 1111,]

7. In real property subject to the provisions of the next section.

It will be noted that subdivision 7 (the last paragraph of the above) refers to the "next section" for the provisions applicable. This reference is to section 117 of the law of 1892; we omit that section as it relates only to real estate. Sections 118, 119 and 120 of the law of 1892 we subjoin.

SECTION 118. The trustees of every such corporation shall as soon as practicable invest the moneys deposited with them in the securities authorized by this article; but for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund not exceeding ten per centum of the whole amount of deposits with such corporation, on hand or deposit in any bank in this State organized under any law of this State or of the United States, or with any trust company incorporated by any law of the State; but the sum so deposited in any one bank or trust company shall not exceed twenty-five per centum of the paid-up capital and surplus of any such bank or company; or such available fund, or any part thereof, may be loaned upon pledge of the securities or any of them named in subdivisions one, two, three and four of the preceding section but one, but not in excess of ninety per centum of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value, after making any loan thereon, the trustees shall

require the immediate payment of such loan or of a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed 90% of the market value of the securities pledged for the same.

SECTION 119. Every such corporation may also deposit temporarily in the banks or trust companies specified in the last section the excess of current daily receipts over the payments, until such time as the same can be judiciously invested in the securities required by this article. Whenever it shall appear to the superintendent of banks that the trustees of any such corporation are violating the spirit and intent of this provision by keeping permanently uninvested all or an undue proportion of the moneys received by them, he shall report the facts to the Attorney-General, who shall proceed against such corporation in the manner provided in section eighty-two of this chapter.

SECTION 120. The trustees of any savings bank shall not loan the moneys deposited with them or any part thereof, upon notes, bills of exchange, drafts or any other personal securities whatever. In all cases of loans upon real property, a sufficient bond secured by a mortgage thereon, shall be required of the borrower, and all the expenses of searchers,* examinations and certificates of title or appraisal of value, and of drawing, perfecting and recording papers, shall be paid by the borrower.

The privilege granted by section 119 might of course be interpreted liberally as opening the gates wide to continuous deposits in banks and trust companies. To avoid any such use of the privilege, the section also provides that whenever it shall appear to the Superintendent of the Banking Department that the trustees of any corporation are violating "the spirit and intent of this section by keeping permanently uninvested "all or an undue portion of the moneys received," he must report to the "Attorney-General, who shall proceed against such corporation," etc.

HEMPSTEAD.—Hempstead is in Queens County and the town originally included Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Seaford villages. On Jan. 1, 1898, that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the county of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April, 1899, and the new boundary will be that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the town of Jamaica, as it existed on the thirty-first day of December, 1897." The amount of the outstanding bonds of this town which will be chargeable to the City of New York has not yet been judicially determined.

BOROUGH OF BROOKLYN.

CITY OF BROOKLYN.

The old city of Brooklyn covered the entire area of the county of Kings, the county government being consolidated with that of the city on January 1, 1896, under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this act "the debt of the said county shall not be deemed to be or be included as a part of the debt of the City of Brooklyn, within the meaning of the provision of the Constitution of the State of New York limiting the power of cities to incur indebtedness." [See CHRONICLE, vol. 62, p. 49.] The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January, 1896.

COUNTY OF QUEENS.

The outstanding bonds of the county of Queens and of the town of Hempstead as also certain of the school districts therein are reported separately under their own heads; the amount which will be chargeable to the city of New York in these cases has not yet been judicially determined, although the referee, ex-Judge Brown, has decided that the division of the debt should be on the basis of the assessed valuation of Nassau County and Queens Borough. This division makes New York City responsible for $3,822,346 and Nassau County for $985,653 of the old county's debt. Although this decision has been confirmed, an appeal has been taken.

LONG ISLAND CITY.

This was formerly a city in Queens County.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The Constitution of 1844 forbade the creating of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c., as will more fully appear in the item below with respect to "debt limitation." This exception, under which it was allowable to exceed the hundred-thousand-dollar limit became operative on the occasion of the breaking out of our Civil War. Quite a debt was created at that period and what the State now owes is the remnant of those war issues. The details are as follows.

LOANS— NAME AND PURPOSE.	Interest.—Rate.	Interest.—Payable.	Principal.—When Due.	Principal.—Outstand'g.
War loan.....	6	J & J	Jan. 1, 1902	71,000

INTEREST is payable in Jersey City and Trenton.

TOTAL DEBT.—The total bonded debt of the State on January 1, 1899, was $71,000. At previous dates it was:

Nov. 1, 1898.....	$194,000	Nov. 1, 1895.....	$660,400
Nov. 1, 1897.....	394,000	Nov. 1, 1894.....	735,400
Nov. 1, 1896.....	593,400	Nov. 1, 1880.....	1,996,300

In addition to the bonded debt the Treasurer and Comptroller have issued certificates to the commissioners of the Agricultural College for $48,000, which, with the war debt, makes the entire debt on January 1, 1899, $119,000. On Nov. 1, 1898, balance on hand was $1,001,524.

ASSESSED VALUATION.—The assessed valuation, etc., has been

1898.....	$844,354,193	1892.....	$742,759,082	1882....	$534,917,876
1897.....	812,609,090	1890.....	649,979,700	1880....	518,617,518
1896.....	794,428,048	1888.....	603,676,953	1878....	531,851,849
1895.....	786,998,070	1886.....	573,256,303	1876....	596,833,707
1894.....	774,398,332	1884.....	554,828,114	1874....	619,057,903

In addition to the above the valuation of railroad and canal property in 1897 was $220,220,028.

DEBT LIMITATIONS.—The provisions of law limiting and regulating the debt-making power in New Jersey will be better understood and the information will be made more serviceable to the investor if arranged in accordance with the civil divisions to which the provisions apply.

(1) *THE STATE* is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of. The third paragraph forbids a loan of the State's credit, and the fourth paragraph forbids the creation of debt. These provisions are as follows.

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State, which shall singly or in the aggregate with any previous debts or liabilities at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war etc., and (2) when the authorization is for some single object of work specified therein, etc. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the Constitution.

(2) *CITIES, COUNTIES, TOWNS, Etc.*, are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the Constitution. We give the paragraph in full.

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibition relates to the giving of money, property or credit of cities, &c., to individuals, associations, or corporations, &c., and that the prohibition is absolute, forbidding the doing of such acts in any form, shape or manner. There is one other restriction of the State Constitution, and that is found in Article IV. Section VII., paragraph 11, which forbids the Legislature passing any *special* laws "regulating the internal affairs of *towns and counties*"; in this and in all other cases in which according to the judgment of the Legislature general laws are feasible, the Constitution states that general laws must be provided.

In compliance with this last provision the Legislature has passed many general laws covering bonded indebtedness of cities, towns, etc. They are so numerous they cannot be cited here. We would refer the reader to the Revised Statutes of New Jersey published in 1896 under the heading "Municipal Bonds" pages 693 to 716 both inclusive; and also to the same heading ("Municipal Bonds") pages 2220, etc.

TAX EXEMPTION.—The State of New Jersey passed in 1893 a general statute which exempts from taxation the bonds, securities and other evidences of indebtedness of municipal corporations; the provision covers not only the bonds, etc., to be hereafter issued, but those as well that have been heretofore issued. It is a sweeping statute, and one which is of decided interest to the holders of the municipal securities of the State. The full text of it may be found in the STATE AND CITY SUPPLEMENT for October, 1898, page 58.

POPULATION OF STATE.—Population has been as follows.

1890.....	1,444,933	1860.....	672,035	1830.....	320,823
1880.....	1,131,116	1850.....	489,555	1820.....	277,426

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The last *general* savings bank law of New Jersey was passed in 1876. Since then the legislative tendency in the matter of investments has been in the direction of allowing the management of these institutions a wider choice and a larger discretion. In 1878 the limits of the 1876 law were broadened in several particulars by a new act of two sections, the first taking the place of section 26 of the act of 1876. In 1886 still another law was passed in place of the first section of the law of 1878. Again in 1889 an act was passed extending materially the provisions of section two of the law of 1878, which covered the same subject matter contained in section 29 of the original law of 1876, and thereby section 26 of the law of 1876 was superseded by the law of 1886, and section 29 was superseded by the law of 1889. In 1896 a supplement approved March 30, 1896 (Chapter 139, laws of 1896) to the law of 1876, making school district bonds an authorized investment, went into effect. In 1897 an act was passed (approved April 9) authorizing investments in bonds issued by commissioners appointed by the Supreme Court of the State. In 1899 a further supplement extending the permissible line of municipal investments so as to include the bonds of townships and boroughs was approved March 24. An attempt to add such securities to the list was made in 1898, but the measure then failed to receive the approval of the Governor. The 1899 law is as follows:

SECTION 1. It shall be lawful for any savings bank in this State to invest its funds in the bonds of any city, county, town or township of this State issued pursuant to the authority of any law of this State, or in the bonds of any borough or village or school district of this State issued pursuant to the authority of any law of this State; *provided*, such borough, village or school district shall not, within the ten years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof; *and provided further*, that the total indebtedness of any such borough or village does not exceed ten per centum of its assessed valuation, and such school district bonds are by law charged upon all the property of the inhabitants of such district, or in any interest-bearing obligation (other than obligations commonly known as improvement certificates) issued by the city, county, town, township, borough or village in which such bank or institution is situated.

The following is the law of 1897 (approved April 9, 1897):

"Sec. 1. It shall be lawful for any bank, trust company, savings bank or savings institution * * * incorporated under the laws of this State, to invest moneys belonging to or deposited with any such companies in any bonds authorized by the laws of this State to be issued by any commission appointed by the Supreme Court of this State by virtue of any law of this State."

We omit the law of 1896 with reference to school district bonds because its provisions are included in the laws of 1899, quoted above.

Next we give the leading provisions of the general law as to investments.

SECTION 1. That the first section of the act of which this is a supplement be and the same is hereby amended so as to read as follows:

That it shall not be lawful, from and after the passage of this act, for any savings bank or other savings institution, whether chartered or incorporated under a general or special act of the legislature of this State, and any provision contained in the charter, or any supplement thereto, of such savings bank or savings institution to the contrary, to invest the moneys deposited with the same in any manner, except as follows, to wit:

I. In the stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof;

II. In the interest-bearing bonds of this State;

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank or institution, defaulted in the payment of any part of either principal or interest of any debt authorized by any legislature of such State to be contracted.

IV. In the stocks or bonds of any city, town, county or village of this State, issued pursuant to the authority of any law of this State, or of the cities of New York, Brooklyn and Philadelphia, or in any interest-bearing obligations (other than those commonly known as improvement certificates) issued by the city, town or borough in which such bank or institution shall be situated; *(See below for provision including the bonds of* certain cities and counties of *any* State in the U. S).

V. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount

loaned thereon, but not to exceed eighty per centum of the whole deposits shall be so loaned or invested; but in case the loan is on unimproved or unproductive real estate, the amount loaned thereon shall not be more than thirty per centum of its actual value; and no investment in any bond and mortgage shall be made by any savings bank, except upon the report of a committee of at least three of the managers, directors or trustees of any such bank or institution, and a majority of which committee shall certify to the value of the premises mortgaged, or to be mortgaged, according to their best judgment; such report shall be filed and preserved among the records of the institution;

VI. In real estate strictly in accordance with the following provisions.

We do not reprint the real estate provisions, as they cover a matter not germane to our present subject. It is sufficient to say that they are two in number, marked *(a)* and *(b)*, and may be summarized as below:

(a) authorizes the holding of a plot for erection of a banking building or buildings, portions of which may be rented, but the cost of lot and buildings must not exceed 50% of the net surplus of the corporation;

(b) all purchases under foreclosure sales upon mortgages owned by the corporation or sales under judgments or decrees obtained for debts due, etc.; and all such real estate must be sold within five years unless, on application to the State Board having supervision of Savings Banks, time shall be extended.

But the character of permissible investments was further greatly enlarged by the law of 1886, which is as follows:

SECTION 1. That it shall be lawful for any savings bank or savings institution, incorporated under any law of this State, to invest moneys deposited with it in the bonds of any city or county of any State of the United States of America, which have been or may be issued pursuant to the authority of any law of any such State; *provided*, no such city or county has, within ten years previous to making such investment by any such savings bank or savings institution of this State, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; *and provided, further*, that the total indebtedness of any such city or county is limited by law to ten percentum of its assessed valuation.

By another act the banks also have the right to *invest in railroad bonds* under certain restrictions. The authorization was given by Section 2 of an act approved February 22, 1888. Subsequently (April 27, 1838,) this Section 2 was repealed. On March 27, 1889, however, it was again re-enacted. The section is as follows:

SECTION 2. That it shall be lawful for any savings bank in this State to invest its funds in first mortgage bonds of any railroad company which has paid dividends of not less than four per centum per annum regularly, on their entire capital stock, for a period of not less than five years next previous to the purchase of such bonds, or in any consolidated mortgage bonds of any such company authorized to be issued to retire the entire bonded debt of such company.

The other law referred to above passed in 1889 amending section 2 of the law of 1878 is as below. It relates to *loans on collaterals*:

SECTION 2. That hereafter it shall not be lawful for any saving institution in this State to loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, excepting upon the additional pledge of collateral security or securities, which collateral security or securities shall be of the same nature and character as those in which the money deposited may be invested, as directed in the first section of this act, or the capital stocks of national and State banks, or other corporations of this State, which have not defaulted in the payment of interest dividends within two years next preceding the time of such loan, and then only to the extent of *eighty* per centum of the *market* value of such collaterals; *provided*, that the total amount of such loans shall not exceed fifteen per centum of the total deposits held by such institution.

In addition to the foregoing (according to section 27 of the general law of 1876) the managers can keep on hand or on deposit in any bank in the State, or in any trust or safe deposit company in New Jersey, New York or Pennsylvania, an available fund of not exceeding ten per cent of the whole amount of deposits with such corporation, or loan the same on pledge of the securities named in the first section cited above. Also (according to section 28 of the general law of 1876) they can deposit temporarily in banks the excess of current daily receipts over payments until such time as they may be judiciously invested.

JERSEY CITY.—

EDWARD HOOS, Mayor.
ROBERT S. JORDAN, Comptroller.

Jersey City formerly suffered greatly from difficulty in collecting taxes and assessments. Under the Martin Act, however, passed some years ago by the Legislature, arrears of taxes are made liens on the property, and if not paid within three years the property can be sold to satisfy them. The city has also succeeded in adjusting the taxes with the railroads, and the latter now pay into the treasury about $225,000 annually. Jersey City is in Hudson County.

RAHWAY.—{CHAS. B HOLMES, Mayor. / R VANDERHOVEN, Treasurer.

This city, of Union County, was declared bankrupt in 1882, and a compromise of the debt exclusive of the water debt ($185,000) was forthwith agreed to with most of the leading creditors at 35 cents on the dollar, the debt, exclusive of water debt, then amounting to about $1,200,000. This settlement was completed in 1894, and interest is now paid promptly on the new bonds. The water bonds were renewed in 1891 at 4 per cent, an agreement having been made in 1890 by which all accrued interest at 7 per cent was adjusted at the 35 per cent rate. Interest on the water bonds is also promptly paid.

DEBT LIMITATION—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State Constitution.

1. *State indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the Constitution, and are as follows.

ARTICLE IX, Sec. 4. No debt shall be created by, or on behalf of, the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars.

SECTION 5. All laws authorizing the borrowing of money by, and on behalf of, the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualiffcation to hold office for a period of not less than five years.

State loans in Pennsylvania, whether created for original indebtedness or authorized to fund existing indebtedness, are usually negotiated through the Governor and Commissioners of the sinking fund.

The last act of the Pennsylvania Legislature authorizing a public loan was the act of June 8, 1881, when a thirty-year loan was effected to fund existing indebtedness at a lower rate of interest.

The earliest date at which the last of the existing indebtedness of Pennsylvania will mature is February 1, 1912, and under existing arrangements the accumulations in the sinking fund will at that time pay the total State indebtedness.

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons, elected tri-ennially under the minority system of voting, by which the minority party in each County usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations.

ARTICLE IX, Sec. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

SECTION 8. The debt of any county, city, borough, township, school district, or other municipality or incorporated district, except as herein provided, shall never exceed seven per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which now exceeds seven per centum of such assessed valuation may be authorized by law to increase the same three per centum, in the aggregate at any one time, upon such valuation.

SECTION 9. The Commonwealth shall not assume the debt, or any part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repeal invasion, suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

(3) *Townships and School Districts.*—In the various school districts of the State the school directors have the power to create loans, subject to the limitations of Section 10 above quoted, to provide for the redemption of the same within thirty years.

In townships, the only authority, except that of the school directors to borrow money, is in the road supervisors, who have no power to create bonded indebtedness, but simply to make a temporary loan for necessary expenses, which must be provided for by an assessment of sufficient township tax rate, known as road tax.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at that time of a like character. The date of the organization was November 27, 1816, and the bank was opened for business December 2, 1816. Mr. Hutchinson, who, now holds the office of President, states that the oldest ledger of the company goes back to the time of opening, and shows a deposit on that day (December 2, 1816) of five dollars. The company was not incorporated until February 25, 1819.

It is surprising that Pennsylvania, although engaged in such an early venture in the department of savings institutions, should have made so little progress in the same department since. Indeed, the second organization does not bear date until 1847, and we think there had only been 10 mutual savings institutions organized in the whole State from 1816 down to the early part of 1890. We may assume, however, that this slow development was in no measure due to a lack of desire for savings banks on the part of the people of that common wealth. That such institutions were sought and needed is sufficiently evident from the fact that nine of the ten companies referred to above reported in 1890 that they held $63.957,341 of deposits. In 1889 a general law, facilitating the incorporation of savings banks, was passed by the Legislature. Since then there has been a small addition to the number of institutions, the total doing business in the State on Nov. 3, 1898, being 16, with deposits aggregating $88,728,071,

The provisions of the special charters are all liberal as to investments A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following.

"*Provided also*, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, EXCEPT first mortgage or lien upon real estate within this commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district within this commonwealth, *or any other good and valid securities.*"

Authority to loan on any "good and valid security "appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

It was not until 1889, as already stated, that a general law facilitating the organization of savings institutions was passed. That law of 1889 is indeed well adapted not only for facilitating, but for stimulating, the growth of the system. Its influence in the latter direction would seem to be assured under the liberality of the provisions respecting investments. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1.) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

(4) In the stocks or bonds of any city, county, town or village of any State of the United States, issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unincumbered, improved real estate, situated in this State.

It will be noted that according to the foregoing (sub-division four), Pennsylvania savings banks are allowed to invest their deposits in the bonds and stocks of any city, county town or village in any of the United States. Furthermore, by the fifth subdivision bonds and mortgages are left to the discretion of the trustees in all purchases, except that they must be first mortgages on improved real estate in Pennsylvania. The next section (18) relates to the temporary deposit of funds in banks and trust companies. It makes it lawful to deposit temporarily in banks or trust companies the excess of current daily receipts over the payments until such time as the same can be judiciously invested in the securities named above.

PHILADELPHIA.—{S. H. ASHBRIDGE, Mayor. JOHN M. WALTON, Comptrol'r.

Philadelphia, co-extensive with the county of the same name, is the third city of the United States, has an area of over 130 square miles, and includes a number of places which have almost the character of separate towns. The county is under city control and has no separate debt. In the following table the various issues of bonds under the general heads, Taxed City Loan and Untaxed City Loan, are given in the order of their dates of maturity.

The long-continued litigation over the issuance of the $11,200,0 0 bonds voted Nov. 7, 1897, was concluded May 15, 1899, by a decision of the Supreme Court confirming their validity. One half the bonds was issued July 1, 1899.

HISTORY OF DEBT.—The historical details of Delaware's State debt from 1865 to 1894 will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 72. The present extent and condition of the debt and resources of the State are given below, showing that Delaware now holds good assets more than equaling its liabilities.

LOANS NAME AND PURPOSE.	Interest. Rate	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.

Temporary loan	3½	.....	On demand.	50,000

INTEREST.—On a part of the bonds of series "B" and of the Refunding bonds of 1897 is payable at the Philadelphia National Bank in Philadelphia.

TOTAL DEBT, ETC.—The total liabilities on March 1, 1899, were $819,750. The assets were $1,169,419; assets in excess of liabilities $349,669. The total assets include bank stocks $477,702; mortgages on railroads $385,000, and bonds, $161,750.

ASSESSED VALUATION.—The total assessed valuation of the State in 1890 was $74,134,401; in 1897 it was $77,632,079.

DEBT LIMITATION.—Neither the new Constitution (adopted June 4, 1897,) nor the old Constitution nor the State statutes contain any general provisions authorizing bond issues or limiting the debt-making power, *except* that the new Constitution—

(1) Forbids the State (Article 8, Sec. 3) to borrow money or create debt, "but pursuant to an Act of the General Assembly passed with the concurrence of three-fourths of all the members elected to each House, except to supply casual deficiencies, repel invasion, suppress insurrections, defend the State in war or pay existing debts."

(2) Forbids any county, city, town or other municipality (Article 8, Sec. 8) to "lend its credit or appropriate money to, or assume the debt of, or become a shareholder or joint owner in, or with, any private corporation or any person or company whatever."

(3) Forbids any corporation (Article 9, Sec. 1) to be created, etc., by special act, "but only by or under general law"; "but the foregoing provisions shall not apply to municipal corporations, banks," etc.

The above indicates that the authority as regards municipalities [except as already specified in number (2)] rests with the General Assembly, and the General Assembly always passes special acts to provide for special occasions and needs.

DEBT LIMITATION.—There is nothing in the Constitution of Maryland limiting the power of the Legislature to authorize bond issues either by the State or by its municipalities. No general limit for cities and towns has been fixed by the Legislature, nor is there any general authorization to be found in the statutes under which cities and towns can issue bonds. This power is lodged in the Legislature, and is delegated to the municipalities from time to time for specific purposes as the occasion may arise. It is necessary, therefore, for the investor to study the law in each case on this as well as on other points affecting the loan with respect to which he may need information.

POPULATION OF STATE.—

1890.....	1,042,390	1860.....	687,049	1830.....	447,040
1880.....	934,943	1850.....	583,034	1820.....	407,350
1870.....	780,894	1840.....	470,019	1810.....	380,546

Of the total population in 1880 22·49 per cent was colored and in 1890 20·92 per cent. In number, blacks were 165,091 in 1850; 171,131 in 1860; 175,391 in 1870; 210,230 in 1880; and 218,004 in 1880.

SAVINGS BANKS INVESTMENTS.—There are in this State general banking laws under which savings banks may be organized, and yet we notice that even in 1890 a special charter was granted incorporating the Germania Savings Bank of Baltimore. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that—

Any savings institution incorporated under this article shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money *which shall be invested or loaned out on good security in the discretion of the directors;* provided that *no part* of the funds of said corporation *shall be loaned to any officer or director* of such corporation.

In the special law passed in 1890, which we have referred to above, the power to loan the deposits is made a little more definite. The section referring to that subject states that the "corporation shall have "power to borrow money, receive money on deposit, loan money '*taking such security therefor, either real or personal, as the Board of* '*Directors may deem sufficient;* provided that *no part* of the funds of "said corporation *shall be loaned to an officer or director* thereof."

We cannot discover any marked difference in the two provisions cited, except that the enactment in the case of the new Baltimore bank states distinctly that the security can be either real or personal. But as much as that would, we think, be assumed as authorized under the general provision, since no limit is made and loaning on bond and mortgage is always a legitimate part of the business of savings banks.

District of Columbia.

(INCLUD'G THE LATE CORPORATION OF WASHINGTON.)

On July 1, 1878, the duties of the Sinking Fund Commissioners of the District of Columbia were transferred to the Treasurer of the United States, and since that date Congress has appropriated annually a sum sufficient to pay not only the interest on the District's bonds but also, it is believed, sufficient to extinguish the entire debt of the District upon the maturity of the 3·65 per cent loan, in 1924. Bonds are tax exempt.

The State tax (per $1,000) for 1898 was $2·84 and the same for 1899.

DEBT LIMITATION.—Ohio has very carefully guarded the debt-making power of the State. This could not be said while the Constitution of 1802 was in force; for under that instrument it was competent for the Legislature to construct works of internal improvement on behalf of the State, or to aid in their construction by subscribing to the capital stock of corporations created for that purpose, or to authorize in other ways the creation of debt in unlimited amounts. But since the adoption of the Constitution of 1851 the whole situation in these particulars has changed, the legislative power with respect to the State having been limited. The same is in large measure true also of the municipalities.

FIRST, As to the State's power to contract debt, this is regulated under the first five sections of article 8 of the Constitution. Section 1 limits the power to the supply of "casual deficits in revenues or to meet expenses not otherwise provided for," but in the aggregate debts for even the purposes named cannot exceed $750,000. Section 2 contains an *exception* to the foregoing; it grants the power to contract debt in case of invasion, of insurrection, of war or of the redemption of the then existing indebtedness. Section 3 reaffirms the limit, except as above specified. Section 4 forbids the loaning of the State credit. Section 5 further forbids the assumption of debts by States. We insert these five sections in full.

SECTION 1. [*Debt limited to seven hundred and fifty thousand dollars*]. The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent whether contracted by virtue of one or more acts of the General Assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to re-pay the debts so contracted and to no other purpose whatever.

SECTION 2. [*Additional and for what purpose.*] In addition to the above limited power the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to re-pay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the State shall be so contracted as to be payable by the sinking fund hereinafter provided for as the same shall accumulate.

SECTION 3. [*The State to create no other debt.*] Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the State.

SECTION 4. [*Credit of State; the State shall not become joint owner or stockholder.*] The credit of the State shall not in any manner be given or loaned to or in aid of any individual association or corporation whatever; nor shall the State ever hereafter become a joint owner or stockholder in any company or association in this State or elsewhere formed for any purpose whatever.

SECTION 5. [*No assumption of debts by the State.*] The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debt shall have been created to repel invasion, suppress insurrection or defend the State in war.

The foregoing sections complete the limitation as to State debt and credit. Sections 7, 8, 9, 10 and 11 of Article 8 cover the matter of sinking funds referred to in Section 2 above. But they need not be published here.

SECOND, As to Cities, Towns, Counties, &c., so far as the Constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in section 6 of article 8 and in sections 1, 2 and 6 of article 13. (1) Section 6 of article 8 forbids the General Assembly to authorize cities, &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of article 13 forbid the passing of special acts and require general acts for conferring corporate powers. (3) Section 6 of article 13 provides that the General Assembly make provision for the organization of cities, &c., by general laws and restrict their debt-making power. These sections are as follows:

ARTICLE 8, Section 6. [*Counties, cities, towns or townships not authorized to become stockholders, &c.*] The General Assembly shall never authorize any county, city, town or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation or association whatever; or to raise money for, or loan its credit to, or in aid of, any such company, corporation or association.

ARTICLE 13, Section 1. [*Corporate powers*]. The General Assembly shall pass no special act conferring corporate powers.

Section 2. [*Corporations how formed*]. Corporations may be formed under general laws; but all such laws may from time to time be altered or repealed.

Section 6. [*Organization of cities, &c.*] The General Assembly shall provide for the organization of cities and incorporated villages by general laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

One at first sight would infer from section 6 article 8 above cited that cities could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker *vs.* The City of Cincinnati, a case which arose under an act of the General Assembly of Ohio entitled "An Act relating to cities of the first class,' authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion is very full and explicit, the conclusion being that from "the language "of the section it is quite evident that it *was not intended to prohibit* "*the construction of railroads nor indeed to prohibit any species of* "*public improvements.* The section contains no direct reference to "railroads nor to any other special classes of improvements or enter- "prises. The inhibitions are directed only against a particular manner "or means by which under the Constitution of 1802 many public im- "provements had been accomplished."

In compliance with section 6, article 13 (cited above), which provides for the organization of cities etc. by general law, the Legislature has made an elaborate classification of municipal corporations. First they are divided into cities, villages and hamlets. Then cities are divided nto two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census.

Cities in the FIRST CLASS—First grade includes all cities of more than 200,000 inhabitants; second grade all less than 200,000 and more than 90,000 inhabitants; third grade all less than 90,000 and more than 31 500 inhabitants.

Cities in the SECOND CLASS—First grade includes all cities of less than 31,500 and more than 30,500 inhabitants; second grade all less than 30,500 and more than 20,000 inhabitants; third grade all less than 20,000 and more than 10,000 inhabitants; fourth grade all less than 10,000 and more than 5,000 inhabitants.
